Meccano Magazine 1916-1981:

Big and Small Lynne Vallone, 2017-01-01 A groundbreaking work that explores human size as a distinctive cultural marker in Western thought. Author, scholar and editor Lynne Vallone has an international reputation in the field of child studies. In this analytical tour de force she explores bodily size difference, particularly unusual bodies big and small as an overlooked yet crucial marker that informs human identity and culture. Exploring miniaturism, gigantism, obesity and the lived experiences of actual big and small people, Vallone boldly addresses the uncomfortable implications of using physical measures to judge normalcy, goodness, gender identity and beauty. This wide-ranging work surveys the lives and contexts of both real and imagined persons with extraordinary bodies from the seventeenth century to the present day through close examinations of art, literature, folklore and cultural practices as well as scientific and pseudo-scientific discourses. Generously illustrated and written in a lively and accessible style, Vallone's provocative study encourages readers to look with care at extraordinary bodies and the cultures that created, depicted, loved and dominated them.

Aviation in the Literature and Culture of Interwar Britain Michael McCluskey, Luke Seaber, 2020-12-01 Aviation in the Literature and Culture of Interwar Britain looks at the impact of aviation in Britain and beyond through the 1920s and 1930s. This book considers how, in this period, flying went from a weapon of war to an extensive industry that included civilian air travel, air mail delivery, flying shows and campaigns to create air-mindedness. Essays look at these developments through the work of writers, filmmakers and flyers and examines the air-minded modernism that marked this radical period. Its fourteen chapters include studies of texts by Virginia Woolf, George Orwell, Elizabeth Bowen, W. H. Auden, T. H. White and John Masefield, accounts of the annual RAF Display at Hendon and the Schneider Trophy and the achievements of celebrity flyers such as Amy Johnson. This collection provides a fresh perspective on the interwar period by bringing analysis of aviation and air-mindedness to the study of British literature, history, modernism, mobilities and the history of technology and transportation.

La presse d'entreprise française au XXe siècle Catherine Malaval, 2001 En tant qu'éléments de représentation, les journaux d'entreprise révèlent la complexité des relations internes et externes des entreprises. Catherine Malaval étudie d'abord un corpus d'une centaine de publications de la fin du XIXe siècle à 1939. Puis elle montre le processus de professionnalisation de cette presse sur la période 1944-1970. À partir de 1970 apparaît la notion de communication.
