We are a pedist who has known so many of the great orthopedists all indebted to S B Mostofi for this fascinating book. It is truly a text for everyone who has an interest in orthopedics. Some of the named physicians have interest in orthopedics and surely should be read by my very close personal friends, many have been my orthopedic trainees, faculty members and been my teachers, professors and colleagues practicing orthopedics. I suggest it be placed in every library in medical institutions and hospitals. Indeed, these physicians through their contributions have made the field of orthopedic surgery what it is today worldwide. Charles A Rockwood Jr MD This is a wonderful source of information on the interesting lives and contributions of the individuals. University of Texas Health Science Center, San Antonio TX USA vii PREFACE My obsession with history goes back a long way. To keep the book readable and reasonable in size I sadly had to cut down the number of individuals whose names are attached to orthopedic entries.
