Medecin Chef A La Prison De La Sante:

Médecin-chef à la prison de la santé Véronique Vasseur, Pierre Drachline, 2000 *Médecin-chef à la prison de la Santé* Véronique Vasseur, 2001-11-01 A sa parution au début de l'année 2000 ce livre a été un coup de tonnerre suscitant réactions et polémiques dans l'administration pénitentiaire le monde politique les médias l'opinion Médecin de garde durant huit ans puis médecin chef dans cette prison située au cœur de Paris Véronique Vasseur témoignait d'un quotidien hallucinant parfois insoutenable conditions sanitaires et médicales scandaleuses mais aussi trafics prostitution tracasseries délations suicides dans un entassement humain où les sans papiers cotoient le VIP où le petit délinquant vit avec le terroriste Privés de liberté les condamnés doivent-ils pour autant être soumis des conditions de vie dégradantes voire inhumaines C'est la question que ce témoignage où le vécu et la réflexion se livrent sans fard et sans préjugé posait et pose encore une démocratie qui se voudrait moderne et respectueuse des droits de l'homme

Principles of European Prison Law and Policy Dirk van Zyl Smit, Sonja Snacken, 2009-01-08 In recent years European prison law and policy have emerged as a force to be reckoned with This book explores its development and analyses the penological and human rights foundations on which it is based It examines the findings of the European Committee for the Prevention of Torture the recommendations of the Council of Europe and the judgments of the European Court of Human Rights From these sources it makes the general principles that underlie European prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights The book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons The final chapter of the book considers how European prison law and policy could best be advanced in future The authors argue that the European Court of Human Rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the European Convention on Human Rights will allow it to do so It concludes that the growing cooperation on prison matters within Europe bodes well for the increased recognition of prisoners rights across Europe In spite of some countervailing voices Europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty

The Arts of Imprisonment Leonidas K. Cheliotis, 2016-12-05 The arts spanning the visual design performing media musical and literary genres constitute an alternative lens through which to understand state sanctioned punishment and its place in public consciousness Perhaps this is especially so in the case of imprisonment its nature its functions and the ways in which these register in public perceptions and desires have historically and to some extent inherently been intertwined with the arts But the products of this intertwinement have by no means been constant or uniform Indeed just as exploring imprisonment and its public meanings through the lens of the arts may reveal hitherto obscured instances of social control within or outside prisons so too it may uncover a rich and possibly inspirational archive of

resistance to them This edited collection sheds light both on state use of the arts for the purposes of controlling prisoners and the broader public and the use made of the arts by prisoners and portions of the broader public as tools of resistance to penal states The book also includes a number of chapters that address arts in prisons programmes making distinctive contributions to the literature on their philosophy formation operation effectiveness and research evaluation as well as taking care to explore the politics surrounding and underpinning these multiple themes *Prison Worlds* Didier Fassin, 2017-05-23

The prison is a recent invention hardly more than two centuries old yet it has become the universal system of punishment How can we understand the place that the correctional system occupies in contemporary societies What are the experiences of those who are incarcerated as well as those who work there To answer these questions Didier Fassin conducted a four year long study in a French short stay prison following inmates from their trial to their release He shows how the widespread use of imprisonment has reinforced social and racial inequalities and how advances in civil rights clash with the rationales and practices used to maintain security and order He also analyzes the concerns and compromises of the correctional staff the hardships and resistance of the inmates and the ways in which life on the inside intersects with life on the outside In the end the carceral condition appears to be irreducible to other forms of penalty both because of the chain of privations it entails and because of the experience of meaninglessness it comprises Examined through ethnographic lenses prison worlds are thus both a reflection of society and its mirror At a time when many countries have begun to realize the impasse of mass incarceration and question the consequences of the punitive turn this book will provide empirical and theoretical tools to reflect on the meaning of punishment in contemporary societies **Invisible Punishment** Meda Chesney-Lind, Marc Mauer, 2011-05-10

In a series of newly commissioned essays from the leading scholars and advocates in criminal justice Invisible Punishment explores for the first time the far reaching consequences of our current criminal justice policies Adopted as part of get tough on crime attitudes that prevailed in the 1980s and 90s a range of strategies from three strikes and a war on drugs to mandatory sentencing and prison privatization have resulted in the mass incarceration of American citizens and have had enormous effects not just on wrong doers but on their families and the communities they come from This book looks at the consequences of these policies twenty years later **Muslims in Prison** J. Beckford, D. Joly, F. Khosrokhavar, 2016-01-12

The growth of Islam in Europe is reflected in the increasing numbers of Muslims in British and French prisons but authorities have responded differently to the challenges presented by Muslim prisoners in each country The findings of three years of intensive research in a variety of prisons show that British prisons facilitate and control the practice of Islam whereas French prisons discourage it and thereby sow the seeds of extremism The policy implications of these ironic findings are examined in detail *Jail Sentences* Andrew Sobanet, 2008-01-01

A long list of canonical writers in Western literature have experienced incarceration and have subsequently written celebrated works about the imprisoned and the condemned The French tradition is no exception writers who produced noteworthy texts while incarcerated or who

later wrote about their experiences in prison are found on the literary historical landscape from the medieval era through the twentieth century Prison writing by inmates former guards chaplains teachers and doctors is firmly established as part of the fabric of popular culture and has long attracted the attention of culture critics and scholars Nevertheless scant analysis exists of the prison novel a literary genre that as Andrew Sobanet argues in *Jail Sentences* uses fiction as a documentary tool Its narrative peculiarities which are the main subjects of Sobanet s study include the use of autobiographical and testimonial techniques to critique the penitentiary system *Jail Sentences* is the definitive study of the legacy of the Western tradition of prison writing in twentieth century French literature Although Sobanet focuses primarily on French writers Victor Serge Jean Genet Albertine Sarrazin and François Bon his keen sense of literary dialogue pulls into the orbit of his study an international corpus of work from Dostoyevsky to Malcolm X *Jail Sentences* arrives at a coherent definition of the genre whose unique conventions stem from the innermost regions of our understanding of stories truth fiction and belief **The Marion Experiment** Stephen C. Richards, 2015-01-21 Taking readers into the darkness of solitary confinement this searing collection of convict experiences academic research and policy recommendations shines a light on the proliferation of supermax super maximum security prisons and the detrimental effects of long term high security confinement on prisoners and their families Stephen C Richards an ex convict who served time in nine federal prisons before earning his PhD in criminology argues the supermax prison era began in 1983 at USP Marion in southern Illinois where the first control units were built by the Federal Bureau of Prisons *The Marion Experiment* written from a convict criminology perspective offers an introduction to long term solitary confinement and supermax prisons followed by a series of first person accounts by prisoners some of whom are scholars previously or currently incarcerated in high security facilities including some of the roughest prisons in the western world Scholars also address the widespread Marionization of solitary confinement its impact on female adolescent and mentally ill prisoners and families and international perspectives on imprisonment As a bold step toward rethinking supermax prisons Richards presents the most comprehensive view of the topic to date to raise awareness of the negative aspects of long term solitary confinement and the need to reevaluate how prisoners are housed and treated **Beyond Foucault** Anne Brunon-Ernst, 2016-04-15 In his hugely influential book *Discipline and Punish* Foucault used the example of Jeremy Bentham s Panopticon prison as a means of representing the transition from the early modern monarchy to the late modern capitalist state In the former power is visibly exerted for instance by the destruction of the body of the criminal while in the latter power becomes invisible and focuses on the mind of the subject in order to identify marginalize and treat those who are regarded as incapable of participating in or unwilling to submit to the disciplines of production The Panopticon links the worlds of Bentham and Foucault scholars yet they are often at cross purposes with Bentham scholars lamenting the ways in which Foucault is perceived to have misunderstood panopticon and Foucauldians apparently unaware of the complexities of Bentham s thought This book combines an appreciation of Bentham s broader project with an engagement of Foucault s

insights on economic government to go beyond the received reading of panopticism as a dark disciplinary technology of power Scholars here offer new ways of understanding the Panopticon projects through a wide variety of topics including Bentham's plural Panopticons and their elaboration of schemes of panoptic Utopia the inverted Panopticon panoptic governance political panopticism and legal panopticism French studies on the Panopticon are groundbreaking and this book brings this research to an English speaking audience for the first time It is essential reading not only for those studying Bentham and Foucault but also those with an interest in intellectual history of the eighteenth and nineteenth centuries and those studying contemporary surveillance and society

gouvernement *Harsh Justice* James Q. Whitman, 2005-04-14 Criminal punishment in America is harsh and degrading more so than anywhere else in the liberal west Executions and long prison terms are commonplace in America Countries like France and Germany by contrast are systematically mild European offenders are rarely sent to prison and when they are they serve far shorter terms than their American counterparts Why is America so comparatively harsh In this novel work of comparative legal history James Whitman argues that the answer lies in America's triumphant embrace of a non hierarchical social system and distrust of state power which have contributed to a law of punishment that is more willing to degrade offenders
