Press Freedom in Contemporary Asia Tina Burrett, Jeffrey Kingston, 2019-11-05. This book analyzes the constraints on press freedom and the ways in which independent reporting and reporters are at risk in contemporary Asia to provide a barometer of democratic development in the region. Based on in-depth country case studies written by academics and journalists and some who straddle both professions from across the region, this book explores the roles of mainstream and online media and how they are subject to abuse by the state and vested interests. Specific country chapters provide up-to-date information on Bangladesh, Kashmir, Malaysia, Myanmar, Nepal, Pakistan, Sri Lanka, Taiwan, Thailand and Vietnam, as well as on growing populist and nationalist challenges to media freedom in the Philippines, India, Indonesia and Japan. The book includes a theoretical chapter pulling together trends and common constraints facing newsrooms across Asia and a regional overview on the impact of social media. Three chapters on China provide insights into the country's tightening information environment under President Xi Jinping. Moreover, the legal environment of the media, political and external pressures, economic considerations, audience support and journalists' standards and ethics are explored. As an international and interdisciplinary study, this book will appeal to undergraduates, graduates and scholars engaged in human rights, media studies, democratization, authoritarianism and Asian Studies, as well as Asia specialists, journalists, legal scholars, historians and political scientists.

**Public Service Media in Europe: A Comparative Approach** Karen Arriaza Ibarra, Eva Nowak, Raymond Kuhn, 2015-07-16. Public service media (PSM) have been the mainstay of Western European broadcasting for a number of decades. Yet despite a general political consensus in favour of PSM, recent technological, economic and political changes have led to a questioning of their value. This new collection of essays explores the history of PSM in selected European countries from their early establishment as the main media in many countries to charting their transformation and evolution in recent years. The contributions consider the political, economic and market integration issues that impact PSM while also highlighting the importance of the ideology that originally accompanied PSM in its initial years to see how relevant they are in the contemporary world. The book consists of two complementary parts: Part I, Theoretical Aspects and Global Influences on Public Service Media in Europe; Part II, A Comparative Analysis of Public Service Media across Europe. With contributions from leading experts, the first part offers a thorough examination of the current concepts and conditions that influence PSM in Europe. The second offers a comparative study of PSM in several European countries, including France.
