

# Media, War, and Propaganda: Strategies of Information Management During the 2003 Iraq War

Deepa Kumar

*It is now widely acknowledged that the Bush administration used faulty and false information to justify the 2003 war on Iraq, and that the mainstream media, by not adequately investigating the case for war, assisted with the project. In this paper, I outline the particular strategies employed by the media–military industrial complex to ensure a dominance of pro-war arguments in the public sphere. I conclude by arguing that the failure of the media in the US to meet the democratic needs of this society places enormous responsibility on intellectuals to produce scholarship critical of the new imperialism.*

*Keywords:* Media; Iraq War; War Rhetoric; Democracy; Propaganda

Today, few would disagree that the Bush administration resorted to propaganda in order to justify its war on Iraq and that the news media simply presented as fact information that they should have carefully scrutinized. Some media outlets have even admitted to this. An editorial on May 25, 2004 in the *New York Times* states that in a number of instances, their coverage of the Iraq war “was not as rigorous as it should have been” and that “information that was controversial then, and seems questionable now, was insufficiently qualified or allowed to stand unchallenged.”<sup>1</sup>

**Embedded** Bill Katovsky, Timothy Carlson, 2003 Contains over sixty highly personal perspectives about the media at war in Iraq [The War in Iraq and Why the Media Failed Us](#) David Dadge, 2006-07-30 Polls show that a sizeable portion of the American population believes that troops found WMD in Iraq and that Saddam Hussein was somehow responsible for the attacks of September 11 Even after the 9 11 Commission Report and numerous other reports have concluded that our intelligence was flawed people in the freest nation on earth continue to be misinformed about something that could not be more vital to understand the reasons for sending troops into harm s way This insightful analysis argues that the media should have done a better job of performing its traditional role of skeptic and watchdog and it examines what went wrong There are of course many people whose support for going to war in Iraq was not contingent on the existence of WMD or a connection to al Qaeda But many others based their support for the war on misinformation Dadge explores why the media did not aggressively investigate the claims made by the administration and intelligence agencies in short why they did not do their job to fully inform the citizenry to the best of their ability He examines pressures from the Bush administration pressures from corporate consolidation of media ownership patriotism and self censorship and other factors He concludes with recommendations for ways in which the media can improve their reporting on government

*Media Strategy and Military Operations in the 21st Century* Michal Shavit,2016-07-15 This book applies the concept of mediatization to the contemporary dynamic between war media and society with a focus on the Israel Defence Forces IDF Since the beginning of the 21st century the IDF has undergone an intensive process of mediatization that has transformed the media into an interpretative grid for many of its military activities and increasingly utilized media to garner public support and construct civilian perceptions of conflict and security through media activity and strategy This process can be divided into four distinct chronological phases in accordance with the operational challenges confronted by the IDF during this period from the Al Aqsa Intifada of 2000 through Israeli unilateral disengagement from Gaza in 2005 and the second Lebanon war of 2006 to the series of Gaza confrontations of 2008 2014 The work shows how the IDF s media policy evolved from a narrow perception of its role and separation between operational and media actions to a cohesive and coherently articulated media strategy that is increasingly intertwined with military action and operational strategy and a vital component of strategic military aims and objectives This strategic stance has led the IDF to adopt a global media perspective using the most advanced new media platforms designed to influence public opinion and improve national narratives both in Israel and the international community By applying the concept of mediatization to the Israeli case this book fills a research lacuna and offers a new prism for the study of media military relations in contemporary conflicts The book will be of much interest to students of civil military relations strategic studies Middle Eastern Studies media and communication studies sociology and IR in general

*The Myth of Media Globalization* Kai Hafez, 2013-07-08 The ongoing interconnection of the world through modern mass media is generally considered to be one of the major developments underpinning globalization This important book considers anew the globalization phenomenon in the media sphere Rather than heralding globalization or warning of its dangers as in many other books Kai Hafez analyses the degree to which media globalization is really taking place Do we have enough evidence to show that there is a linear and accelerated move towards transnationalization in the media All too often the empirical data presented seems rather more anecdotal than representative Many transborder media phenomena are overestimated and taken out of the context of locally and nationally oriented mainstream media processes all over the world The inherent danger is that a central paradigm of the social sciences rather than bearing scholarly substance will turn out to be a myth and even a sometimes dangerously ideological tool Based on a theoretical debate of media globalization the work discusses most major fields of media development including foreign reporting satellite TV film internet foreign broadcasting media and migration media policy and media economy As an important new contribution to timely debates *The Myth of Media Globalization* will be essential and provocative reading for students and scholars alike
