**High Performance Multimedia** P.A. Bruck,J. Boumans,2008-07-23 The focus of High Performance Multimedia is on the ever expanding European e content industry Production aggregation and distribution of that content are the starting points to any future development towards a flourishing industry sector of the third millennium Nevertheless in addition to the diffusion of knowledge throughout the industry digitalisation has completely changed the structure of the content business through the dissociation of content and media channel This movement creates problems in the process of the business Highest technological demands in time and money are limiting the size of e content enterprises today In contrast its distribution is still being dominated by broadcasters and telecom providers that skim the biggest part of the profits However possibilities do arise when analyzing the industry of e content The European e content market will be able to play a major role in the future by including all relevant players and their abilities The challenge during the next years will be to stop the concentration on high end technology and to create new adequate e content services providing added value to everyone in Europe

**Business** 〰〰〰〰〰〰〰〰,2003 **No Trespassing** Eva Hemmungs Wirtén,2004-12-15 In this scholarly yet highly accessible work Eva Hemmungs Wirtén traces three main themes within the scope of cultural ownership authorship as one of the basic features of print culture the use of intellectual property rights as a privileged instrument of control and finally globalization as a pre condition under which both

operate Underwritten by rapid technological change and increased global interdependence intellectual property rights are designed to protect a production that is no longer industrial but informational No Trespassing tells the story of a century of profound change in cultural ownership It begins with late nineteenth century Europe exploring cultural ownership in a number of settings across both spatial and temporal divides and concludes in today's global knowledge based society Wirt n takes an interdisciplinary and international approach using a wide array of material from court cases to novels for her purposes From Victor Hugo and the 1886 Berne Convention to the translation of Peter Heg's bestseller Smilla's Sense of Snow Wirt n charts a history of Intellectual property rights and regulations She addresses the relationship between author and translator looks at the challenges to intellectual property by the arrival of the photocopier takes into account the media conglomerate's search for content as a key asset since the 1960s and considers how a Western legal framework interacts with attempts to protect traditional knowledge and folklore No Trespassing is essential reading for all who care about culture and the future regulatory structures of access to it

**Hedged** Margot Susca, 2024-01-23 The untold history of an American catastrophe The ultrawealthy largely own and guide the newspaper system in the United States Through entities like hedge funds and private equity firms this investor class continues to dismantle the one institution meant to give voice to average citizens in a democracy Margot Susca reveals the little known history of how private investment took over the newspaper industry Drawing on a political economy of media Susca's analysis uses in depth interviews and documentary evidence to examine issues surrounding ownership and power Susca also traces the scorched earth policies of layoffs debt cash outs and wholesale newspaper closings left behind by private investors and the effects of the devastation on the future of news and information Throughout Susca reveals an industry rocked less by external forces like lost ad revenue and more by ownership and management obsessed with profit and beholden to private fund interests that feel no responsibility toward journalism or the public it is meant to serve

Cortada,2006 The Digital Hand Volume 2 is a historical survey of how computers and telecommunications have been deployed in over a dozen industries in the financial telecommunications media and entertainment sectors over the past half century It is part of a sweeping three volume description of how management in some forty industries embraced the computer and changed the American economy Computers have fundamentally changed the nature of work in America However it is difficult to grasp the full extent of these changes and their implications for the future of business To begin the long process of understanding the effects of computing in American business we need to know the history of how computers were first used by whom and why In this the second volume of The Digital Hand James W Cortada combines detailed analysis with narrative history to provide a

broad overview of computing's and telecommunications role in over a dozen industries ranging from Old Economy sectors like finance and publishing to New Economy sectors like digital photography and video games. He also devotes considerable attention to the rapidly changing media and entertainment industries which are now some of the most technologically advanced in the American economy. Beginning in 1950 when commercial applications of digital technology began to appear, Cortada examines the ways different industries adopted new technologies as well as the ways their innovative applications influenced other industries and the US economy as a whole. He builds on the surveys presented in the first volume of the series which examined sixteen manufacturing, process, transportation, wholesale and retail industries. In addition to this account of computers' impact on industries, Cortada also demonstrates how industries themselves influenced the nature of digital technology. Managers, historians and others interested in the history of modern business will appreciate this historical analysis of digital technology's many roles and future possibilities in a wide array of industries. *The Digital Hand* provides a detailed picture of what the infrastructure of the Information Age really looks like and how we got there. *Introduction to Marketing* Johan Botha, Cornelius Bothma, Annekke Brink, 2005-09. With a full explanation on the basic principles of marketing, this guidebook helps readers answer such questions as: What is marketing? What is a marketing forecast and what is the best way to conduct market research? Written by professionals for students and entrepreneurs, this text also features international case studies, numerous up-to-date examples of the latest developments and trends in marketing, and tried and tested information that helps students learn.
