New Concept Of Flower Design:

New Concepts in Paper Quilling Marie Browning, 2008 Quilling also known as paper filigree or scroll work is the art of rolling very thin strips of paper into elegant shapes turning them into beautiful designs and then gluing them onto a base for display In addition to offering 28 unique shapes it introduces some contemporary quilling possibilities such as husking fringing crimping and sculpting from publisher description

Concept Generation for Design Creativity Toshiharu Taura, Yukari Nagai, 2012-07-26 The concept generation process seems like an intuitional thought difficult to capture and perform although everyone is capable of it It is not an analytical process but a synthetic process which has yet to be clarified Furthermore new research methods for investigating the concept generation process a very difficult task since the concept generation process is driven by inner feelings deeply etched in the mind are necessary to establish its theory and methodology Concept Generation for Design Creativity A Systematized Theory and Methodology presents the concept generation process both theoretically and methodologically Theoretically the concept generation process is discussed by comparing metaphor abduction and General Design Theory from the notions of similarities and dissimilarities Analogy blending and integration by thematic relation have been explained methodologically So far these theories and methods have been discussed independently and the relations among them have not been clarified Two newly developed research methods to investigate the concept generation process are clearly explained the explanation based protocol analysis and constructive simulation By reading Concept Generation for Design Creativity A Systematized Theory and Methodology students researchers and lecturers in design disciplines including engineering design industrial design software design CHI design education and cognitive science can obtain a clear picture of the advanced research findings and the outline of the theories and methods for concept generation Furthermore readers are expected to achieve the competence to generate new concepts
