The Quality of Democracy in Eastern Europe Andrew Lawrence Roberts, 2010 How does democracy work in the new democracies of Eastern Europe Do the people actually rule as one would expect in a democracy or do the legacies of communism and the constraints of the transition weaken popular control This book presents a new framework for conceptualizing and measuring democratic quality and applies this framework to multiple countries and policy areas in the region It defines democratic quality as the degree to which citizens are able to hold leaders accountable for their performance and keep policy close to their preferences Its surprising conclusion drawn from large N statistical analyses and small N case studies is that citizens exercise considerable control over their rulers in Eastern European democracies Despite facing difficult economic circumstances and an unfavorable inheritance from communism these countries rapidly constructed relatively high quality democracies Provided by publisher

policy are offered that may aid democracies in their consolidation Policy Reform and the Development of Democracy in Eastern Europe Chris Hasselmann, 2017-11-30 Integrating the international pressures emanating from the Washington Consensus with an analysis of domestic interest representation this book explores the political consequences of privatization and the progress of democracy in Eastern Europe Chris Hasselmann investigates whether the issue of pension reform offers a natural controlled experiment with which to explore both issues throughout the region and the former Soviet Union The volume will prove of value to those with an interest in public policy and governance issues the politics of Eastern Europe and political theory more generally *Challenges to Democracy* Sten Berglund, 2001-01-01 The book is written in a systematic clear and accessible style and provides an excellent introduction to the state of democracy in contemporary postsocialist Europe Recommended for undergraduate graduate research and faculty collections P Rutland Choice The euphoria evidenced in the aftermath of the collapse of communist regimes in the late 1980s and early 1990s sometimes conveyed the impression that the process of democratization would be achieved without difficulty or tribulation This book sets out to provide a thorough comparative analysis of the challenges which face the emerging democracies of Central and Eastern Europe and considers the impact of political change Drawing heavily on available survey data the book provides an in depth account of how the new democracies of Central and Eastern Europe have coped with four major challenges political fragmentation nationalism lack of respect for human rights and poorly developed civil service systems The book demonstrates that although the first few years of the 1990s were marked by increasing disenchantment with the new regimes the change of governments as a direct result of the electoral process and the prospects for European integration have served to reverse this negative trend Indeed the authors find that the new political systems have managed to cope with the challenges so effectively that striking similarities with Western democracies are now apparent **Politics, Power and the Struggle for Democracy in South-East Europe** Karen Dawisha, Bruce Parrott, 1997-06-13 Edited by two of the world's leading analysts of post communist politics this book brings together distinguished specialists on Bosnia Hercegovina Croatia Macedonia Slovenia Serbia Montenegro Albania Bulgaria and Romania The authors analyse the challenge of building democracy in the countries of the former Yugoslavia riven by conflict and in neighboring states They focus on oppositional activity political cultures that often favour strong presidentialism the role of nationalism and basic socioeconomic trends Karen Dawisha and Bruce Parrott provide theoretical and comparative chapters on post communist political development across the region This book will provide students and scholars with detailed analysis by leading authorities plus the latest research data on recent political and economic developments in each country The State of Democracy in Central and Eastern Europe Ramona Coman, Luca Tomini, 2017-10-02 The State of Democracy in Central and Eastern Europe brings together scholars specialising in the study of Central and Eastern Europe and provides a comprehensive analysis of some of the major issues in the democratic make up of the EU's new member states The book covers the main dimensions of the state

and contributors discuss questions about the development of democracy in Central and Eastern Europe over the past twenty years What is the present state of democracy in Central and Eastern Europe more than twenty years since the end of communist regimes What is the actual functioning of the political institutions of these countries How is political participation structured and what role do political parties play in these democracies What guarantees are provided to limit governmental powers and abuse What is the role of the judicial system and the relationship between justice and politics How can we evaluate the EU's influence regarding democratic consolidation What is the role of the public opinion This book was originally published as a special issue of *Europe Asia Studies* *Media and Politics in New Democracies* Jan Zielonka, 2015-10-08 This book analyses the relationship between the media and politics in new democracies in Europe and other parts of the world It does so from both theoretical and empirical angles How is power being mediated in new democracies Can media function independently in the unstable and polarised political environment experienced after the fall of autocracy Do major shifts in economic and ownership structures help or hinder the quality of the media How much can new media laws alter old journalistic habits and political cultures And how do new technologies impact the media and democracy The book examines these questions drawing on a vast set of data assembled by a large international project *Media and Politics in New Democracies* focuses chiefly on new democracies in Central and Eastern Europe but chapters analysing new democracies in Latin America Africa and Southeast Asia are also included These new democracies represent a variety of what sociologists call glocalism homogenisation and heterogenisation coexist revealing hybrid models and multiple modernities It is local culture that assigns meaning to global and regional influences Ideal liberal models and best practices are being promoted and aspired to but these models and practices are often being adopted in opaque ways generating results opposite to those intended The book finds many new democracies to be fragile if not deficient and tries to show what is really going on in these countries how they compare to each other and what they can learn from each other
