## **New Detente Rethinking East West Relations:**

The New Detente Mary Kaldor, Gerard Holden, Richard A. Falk, 1989 Introduction by Mary Kaldor      **Rethinking Theory and History in the Cold War** Richard Saull, 2001 Rethinking Theory and History in the Cold War focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society **BOOK JACKET**      European Polyphony: Perspectives beyond East-West Confrontation Ole Wæver, Pierre Lemaitre, Elzbieta Tømer, 1989-10-16 This study deals with the internal socio political changes that the traditional political structures have not been able to incorporate the perspectives of the superpowers and surveys of the debate on European security in each of 11 states The book begins and ends with a theoretical overview      *Security and Strategy in the New Europe* Colin McInnes, 2002-09-11 The thawing of the Cold War has brought new concerns over the nature of European security to the fore and uncovered major differences in the approaches of individual states to changed circumstances This book clarifies the options for a new European security order and contribute to the growing debate It adopts a medium term analytical approach and uses a three tier format covering the nature and structure of security and the security implications of Europe's resurgent nationalism security strategy with particular reference to the NATO perspective and to the European Community and the distinctive security concerns of individual states It looks at both Eastern and Western Europe and at the Soviet Union and it analyses the role of the United States in European security The thawing of the Cold War has brought new concerns over the nature of European security to the fore and uncovered major differences in the approaches of individual states to changed circumstances      **1989** James Mark, Bogdan C. Iacob, Tobias Rupprecht, Ljubica Spaskovska, 2019-08-29 Placing Eastern Europe in a global context this provides new perspectives on the political economic and cultural transformations of the late twentieth century      Frontiers of Globalization Research: Ino Rossi, 2007-03-21 To bring this volume together the editor asked leading scholars in the field of globalization to outline a research framework that reflects their own approach to the subject The resulting book presents a broad spectrum of analytical approaches to globalization Theoretical reviews are complemented by substantive chapters and methodological analyses Contributors include scholars in the fields of sociology anthropology history and political science These writings have been organized into four sections theoretical perspectives and cultural globalization economic globalization political globalization and methodological approaches      **Fighting for Human Rights** Paul Gready, 2004-08-02 In a world that is increasingly disillusioned with formal politics people are no longer prepared to wait for

governments and international institutions to act on human rights concerns This book identifies activism as a key means of realizing human rights and as a new form of politics Fighting for Human Rights documents and compares successful high profile campaigns to cancel debt in the developing world ban landmines and set up the International Criminal Court as well as emerging campaigns that focus on HIV AIDS environmental justice democratization and blood diamonds

**The Palgrave Handbook of Disciplinary and Regional Approaches to Peace** Oliver Richmond, Sandra Pogodda, Jasmin Ramovic, 2016-03-15 In this handbook a diverse range of leading scholars consider the social cultural economic political and developmental underpinnings of peace This handbook is a much needed response to the failures of contemporary peacebuilding missions and narrow disciplinary debates both of which have outlined the need for more interdisciplinary work in International Relations and Peace and Conflict studies Scholars students and policymakers are often disillusioned with universalist and northern dominated approaches and a better understanding of the variations of peace and its building blocks across different regions is required Collectively these chapters promote a more differentiated notion of peace employing comparative analysis to explain how peace is debated and contested

**Humanitarian Intervention and Legitimacy Wars** Richard Falk, 2014-08-21 In the aftermath of the Cold War there has been a dramatic shift in thinking about the maintenance of peace and security on a global level This shift is away from a preoccupation with how to prevent major wars between sovereign states to a preoccupation about non state transnational warfare and violence and strife within states in a world order that continues to be juridically and politically delimited by spatial ideas of national sovereignty and national independence as signified by international boundaries In this book Richard Falk draws upon these changes to examine the ethics and politics of humanitarian intervention in the 21st Century As well as analysing the theoretical and conceptual basis of the responsibility to protect the book also contains a number of case studies looking at Iraq Afghanistan Kosovo and Syria The final section explores when humanitarian intervention can succeed and the changing nature of international political legitimacy in countries such as India Tibet South Africa and Palestine This book will be of interest to students of International Relations theory Peace Studies and Global Politics

Globalization and Utopia P. Hayden, C. el-Ojeili, 2009-03-12 Taking aim at the belief in utopia's demise this collection of original essays offers a new look at the vibrant renewal of utopianism emerging in response to the challenges of globalization It considers questions of hope and transformation associated with the utopian desire for social change
