New Directions in Linguistics and Semiotics James E. Copeland, 1984-01-01 This volume derives from a symposium held in March 1982 to celebrate the inauguration of the Department of Linguistics at Rice University The focus of the symposium was the state of linguistics and semiotics in its recent past the current status and directions to be explored in the immediate future

Rethinking Art History Donald Preziosi, 1989-01-01 A general overview of the theoretical and institutional history of the discipline of art history Refuting the image of art history as a discipline in crisis Preziosi asserts that many of the dilemmas and contradictions of art history today are not new but can be traced back to problems surrounding the founding of the discipline its institutionalization and its academic expansion since the 1870s Donald Preziosi has written a timely and incisive study of the methods and assumptions of art history in the modern period As the book unfolds one realizes that art history was never as unitary and monolithic as the phrase the discipline of art history suggests but is in fact a complicated and highly contradictory range of practices whose disciplinary coherence may be more mythical than real This is a deliberately discomfiting book however for its clear sightedness rigor and wit it is a book to be welcomed by everyone concerned with the present condition and future direction of visual studies Norman Bryson Harvard University An important and courageous book Rethinking Art History is a rigorous and original contribution to the current post structuralist and postmodernist debates in cultural studies here and abroad Steven Z Levine Bryn Mawr College Through this kind of reading of the discourse of art history Preziosi provides some acute analysis of the metaphors and stratagems which continue to discipline the discipline of art history

Nature, Ritual, and Society in Japan's Ryukyu Islands Arne Røkkum, 2006-04-18 Despite their small area the southern islands of Japan can be seen as stepping stones towards a more nuanced view of cultural osmosis between Japan and the outside world This book presents an ethnographic portrayal of the people of the Southern Ryukyu Islands and their world In particular it explores the mind of the islanders their relationship with the natural world their social relationships and the rituals which represent and give expression to these relationships Based on extensive original research including participant observation the book allows the authentic voices of the Ryukyu Island worlds to speak for themselves as well as setting the work in the wider context of anthropology Japanese Studies and Pacific Island studies
