New Grove Dictionary Of Music Musician Volume 24

Elena Abramov-van Rijk

New Grove Dictionary Of Music Musician Volume 24:

Singing Dante: The Literary Origins of Cinquecento Monody Elena Abramov-van Rijk, 2017-07-05 This book takes its departure from an experiment presented by Vincenzo Galilei before his colleagues in the Florentine Camerata in about 1580 This event namely the first demonstration of the *stile recitativo* is known from a single later source a letter written in 1634 by Pietro dei Bardi son of the founder of the Camerata In the complete absence of any further information Bardi's report has remained a curiosity in the history of music and it has seemed impossible to determine the true nature and significance of Galilei's presentation That unfortunately still remains true for the music which is lost Yet we know a crucial fact about this experiment the poetic text chosen by Galilei it was an excerpt from the *Divine Comedy* by Dante Alighieri the Lament of Count Ugolino Starting from this information the author examines the problem from another angle Investigation of the perception of Dante's poetry in the sixteenth century as well as a deeper enquiry into cinquecento poetic theories and especially phonetics leads to a reconstruction of Galilei's motives for choosing this text and sheds light on some of the features of his experiment

The Musical Life of Nineteenth-Century Belfast Roy Johnston, 2017-07-05 Roy Johnston and Declan Plummer provide a refreshing portrait of Belfast in the nineteenth century Before his death Roy Johnston had written a full draft based on an impressive array of contemporary sources with deep and detailed attention especially to contemporary newspapers With the deft and sensitive contribution of Declan Plummer the finished book offers a telling view of Belfast's thriving musical life Largely without the participation and example of local aristocracy nobility and gentry Belfast's musical society was formed largely by the townspeople themselves in the eighteenth century and by several instrumental and choral societies in the nineteenth century As the town grew in size and developed an industrial character its townspeople identified increasingly with the large industrial towns and cities of the British mainland Efforts to place themselves on the principal touring circuit of the great nineteenth century concert artists led them to build a concert hall not in emulation of Dublin but of the British industrial towns Belfast audiences had experienced English opera in the eighteenth century and in due course in the nineteenth century they found themselves receiving the touring opera companies in theatres newly built to accommodate them Through an energetic groundwork revision of contemporary sources Johnston and Plummer reveal a picture of sustained vitality and development that justifies Belfast's prominent place the history of nineteenth century musical culture in Ireland and more broadly in the British Isles

Art and Music in the Early Modern Period Katherine A. McIver, 2017-07-05 The relationship between music and painting in the Early Modern period is the focus of this collection of essays by an international group of distinguished art historians and musicologists Each writer takes a multidisciplinary approach as he or she explores the interface between music

performance and painting or between music and art theory The essays reflect a variety and range of approaches and offer methodologies which might usefully be employed in future research in this field The volume is dedicated to the memory of Franca Trinchieri Camiz an art historian who worked extensively on topics related to art and music and who participated in some of the conference panels from which many of these essays originate Three of Professor Camiz s own essays are included in the final section of this volume together with a bibliography of her writings in this field They are preceded by two thematic groups of essays covering aspects of musical imagery in portraits issues in iconography and theory and the relationship between music and art in religious imagery

Musical Improvisation and Open Forms in the Age of Beethoven Gianmario Borio,Angela Carone,2017-12-14 Improvisation was a crucial aspect of musical life in Europe from the late eighteenth century through to the middle of the nineteenth representing a central moment in both public occasions and the private lives of many artists Composers dedicated themselves to this practice at length while formulating the musical ideas later found at the core of their published works improvisation was thus closely linked to composition itself The full extent of this relation can be inferred from both private documents and reviews of concerts featuring improvisations while these texts also inform us that composers quite often performed in public as both improvisers and interpreters of pieces written by themselves or others Improvisations presented in concert were distinguished by a remarkable degree of structural organisation and complexity demonstrating performers consolidated abilities in composition as well as their familiarity with the rules for improvising outlined by theoreticians

Charles Hallé:

A Musical Life Robert Beale,2017-07-05 Charles Hall as one of the leading musicians of the nineteenth century and intimate with almost all of the great composers and performers of his time as well as a friend of the Royal Family and known as much as a pianist and chamber musician as a conductor in London throughout the country and abroad in addition to Manchester Robert Beale presents a new perspective on Hall life and achievement constructed mainly from primary sources which serves

to dispel many of the inaccuracies and omissions that have stemmed to a great extent from Hall own autobiographical account of 1896 His edited memoirs omit much of the competition and controversy struggles and disappointments of his career in Manchester and indeed hardly convey the scope of his activities elsewhere Hall as a key figure in the shift from contemporary to classical repertory in orchestral concerts and piano performance Not only did he found the Manchester orchestra in 1862 3 he also gave the first known cycle of Beethoven s piano sonatas His early annual recital series in London marked a new era in the musical history of his time The formation of the modern symphony orchestra took place during the period of Hall professional life and he was a pioneer in the process in both artistic and business terms Having adopted the role of orchestral conductor when it was itself relatively novel he became one of the acknowledged masters of the craft over four and half decades as well as continuing to appear as solo pianist and chamber musician and in addition he was enormously influential as musical pedagogue and educationist
