New Guinea A Novel Of War At Sea:

Naval Warfare 1919-45 Malcolm H. Murfett, 2008-11-04 *Naval Warfare 1919 45* is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world this book ranges far and wide sweeping across all naval theatres and those powers performing major as well as minor roles within them Armed with the latest material from an extensive set of sources Malcolm H Murfett has written an absorbing as well as a comprehensive reference work He demonstrates that superior equipment and the best intelligence ominous power and systematic planning vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea Sometimes the narrow difference between victory and defeat hinges on those infinite variables the individual s performance under acute pressure and sheer luck *Naval Warfare 1919 45* is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public **Proceedings of the United States Naval Institute** United States Naval Institute, 1994 *New Guinea 1942-43* Mark Stille, John Rogers, 2025-09-25 Lavishly illustrated this book studies the role of airpower in the New Guinea battles of 1942 43 as the Allies checked and halted Japan s last significant offensives Mark Stille and John Rogers offer a new history of a previously neglected part of the South Pacific air war the battles over New Guinea and the waters around it The first of two books on the subject drawing on Japanese American and Australian sources it details operations from February 1942 until April 1943 which saw the Allies stop the last Japanese efforts to expand their faltering empire Allied air operations focused on denying the Japanese the use of the sea to send reinforcements to New Guinea during the battles for Buna and Gona the unsuccessful and little known Japanese invasion at Milne Bay and the Battle of the Bismarck Sea in which a major Japanese effort to move troops to New Guinea was crushed by air power While the Japanese had over extended and lost operational focus the Allies were successful in interdicting sea movement of Japanese forces to New Guinea However immature tactics meant air power was largely ineffective supporting their ground campaign Packed with photos superb original battlescenes 3D diagrams and maps this book explains the roles of Japanese and Allied air power in the crucial battle of New Guinea **Weapon of Denial: Air Power and the Battle for New Guinea , Strangers in the South Seas** Richard Lansdown, 2006-04-30 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaal islands at the far ends of the earth First set down by Egyptian storytellers Greek philosophers and Latin poets such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences as the region revealed gaps and anomalies in the great chain of being that Charles Darwin would begin to address after his

momentous visit to the Galapagos Islands The Pacific produced similar challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe Although most missionary efforts ultimately met with success others ended in ignominious retreat As the century wore on the region presented opportunities and dilemmas for the imperial powers leading to a guilty desire on the part of some to pull out along with an equally guilty desire on the part of others to stay and help This process was accelerated by the Pacific War between 1941 and 1945 After more than two millennia of fantasies the story of the West's fascination with the insular Pacific graduated to a marked sense of disillusion that is equally visible in the paintings of Gauguin and the journalism of the nuclear Pacific Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It begins in 1521 with an account of Guam by Antonio Pigafetta one of the few men to survive Magellan's circumnavigation voyage and ends in the late 1980s with the writing of an American woman Joana McIntyre Varawa as she faces the personal and cultural insecurities of marriage and settlement in Fiji It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Comprehensively illustrated and annotated this anthology will introduce readers to a region central to the development of modern Western ideas This is a carefully conceived anthology covering an excellent range of subjects The selections are well chosen and interesting and the introductory materials are both scholarly and accessible It should be widely used in university courses dealing with almost any aspect of the Pacific Rod Edmond University of Kent at Canterbury The Publishers' Circular and Booksellers' Record, 1928 **The Oxford Companion to Australian Literature** William Henry Wilde, Joy W. Hooton, B. G. Andrews, 1985 A comprehensive account of Australian literature from the first settlement in 1788 to the current day this book represents the most important achievements in Australian poetry drama and fiction as well as non-fictional prose journals diaries biographies and autobiographies and details the impact on the writing caused by those historical events that often serve as a work's theme More than 3 000 informative entries cover subjects such as transportation exploration gold discoveries bushranging and outback ethos all of which played a part in the development of the continent's literature as did the pervasive presence and influence of the Aboriginal culture Entries range from lengthy articles on special topics to brief factual paragraphs explaining words or references Also provided is information and reference sources on important past and contemporary writers as well as anything and everything that may have influenced their development the growth of publishing and periodicals the impact of movements such as nationalism racialism and feminism and the contributions made by booksellers critics and literary associations A major new Oxford Companion this book makes an intriguing new genre of literature accessible to all readers

Empire, War, Tennis and Me Peter Doherty, 2022-08-02 For those who look and think deeply new connections emerge Peter Doherty one of the world's foremost authorities on immunology recipient of the Nobel Prize for medicine and an active

and respected commentator on public health reflects in this book on empire war and tennis Doherty identifies the origins of modern tennis within its imperial context relating seemingly unlikely connections between the sport its players and national militaries He traces the fate of tennis and its players as a nascent force for internationalism and cultural tolerance within the context of World War II And he personalises this account through an unsentimental but revealing depiction of his tennis loving Queenslander uncles at war and in captivity in the Pacific As Doherty shows tennis and war have threaded their way through the lives of many people since the nineteenth century in a way intriguingly unique to this sport This is part of Peter s story And as we come to realise it is also part of the story of our world Subject Index of Modern Books Acquired British
