New Investment Theory Of Real Options And Its Implication For Telecommunications Economics:

The New Investment Theory of Real Options and its Implication for Telecommunications Economics James J. Alleman, Eli M. Noam, 2007-08-19 Randall B Lowe Piper Marbury L L R The issue of costing and pricing in the telecommunications industry has been hotly debated for the last twenty years Indeed we are still wrestling today over the cost of the local exchange for access by interexchange and competitive local exchange carriers as well as for universal service funding The U S telecommunications world was a simple one before the emergence of competition comprising only AT T and independent local exchange carriers Costs were allocated between intrastate and interstate jurisdictions and then again between intrastate local and toll The Bell System then divided those costs among itself using a process referred to as the division of revenues and independents using a process called settlements Tolls subsidized local calls to keep the politicians happy and the firm as a whole covered its costs and made a fair return State regulators however lacked the wherewithal to audit this process Their concerns centered generally on whether local rates irrespective of costs were at a politically acceptable level Although federal regulators were better able to determine the reasonableness of the process and the resulting costs they adopted an approach of continuous surveillance where like the state regulator the appearance of reasonableness was what mattered With the advent of competition this historical costing predicate had to change The Bell System as well as the independents were suddenly held accountable *The Economics of Online Markets and ICT Networks* Russel Cooper, Gary Madden, Ashley Lloyd, Michael Schipp, 2006-07-25 This volume examines the economics of platform structure and firm competition within and between online markets It also details modern theoretical treatments of regulatory intervention in online markets and the consideration of forward looking experimental analysis of demand for yet to be provided services The volume is divided into three parts innovation and competition in online markets regulation pricing and evaluation with real options and empirical approaches to market analysis Strategic Investment Decisions in Regulated Markets Christian Wernick, 2007-09-25 Most network industries throughout Europe are subject to sector specific regulation with large impact on market structures and results Consequently questions related to regulatory designs and their effects on market outcomes become more and more important in business and politics as well as in scholarly research Concentrating on Germany and the UK Christian Wernick provides the reader with insights on the effects of different regulatory strategies which take place under a common European regulatory framework Combining theoretical analyses and empirical material a sophisticated and balanced picture on the coherences between regulation and investment behaviour in Germany's and the UK's broadband markets is presented **The Handbook of Maritime Economics and Business** Costas Grammenos, 2013-07-04 This book is the founding title in the Grammenos Library The diversity of the subjects covered is unique and the results of research developed over many years are not only comprehensive but also have important implications on real life issues in maritime business The new edition covers a vast number of topics including Shipping Economics and Maritime Nexus International
