Dobson,2017-09-14 This book examines temporal and formal disruptions found in American autobiographical narratives produced during the end of the nineteenth century It argues that disruptions were primarily the result of encounters with new communication and transportation technologies Through readings of major autobiographical works of the period James E Dobson argues that the range of affective responses to writing communicating and traveling at increasing speed and distance were registered in this literature s formal innovation These autobiographical works Dobson claims complicate our understanding of the lived experience of time temporality and

existing accounts of periodization This study first examines the competing views of space and time in the nineteenth century and then moves to examine how high speed train travel altered American literary regionalism the region and history Later chapters examine two narratives of failed homecoming that are deeply ambivalent about modernity and technology Henry James s *The American Scene* and Theodore Dreiser s *A Hoosier Holiday* before a reading of the telephone network as a metaphor for historiography and autobiography in Henry Adams s *The Education of Henry Adams*

Not Quite Hope and Other Political Emotions in the Gilded Age Nathan Wolff, 2019 *Not Quite Hope and Other Political Emotions in the Gilded Age* argues that late nineteenth century US fiction grapples with and helps to conceptualize the disagreeable feelings that are both a threat to citizens agency and an inescapable part of the emotional life of democracy then as now In detailing the corruption and venality for which the period remains known authors including Mark Twain Harriet Beecher Stowe Henry Adams and Helen Hunt Jackson evoked the depressing inefficacy of reform the lunatic passions of the mob and the revolting appetites of lobbyists and office seekers Readers and critics of these Washington novels historical romances and satiric romances a cleft have denounced these books fiercely negative tone seeing it as a sign of cynicism and elitism *Not Quite Hope* argues in contrast that their distrust of politics is coupled with an intense investment in it not quite apathy but not quite hope Chapters examine both common and idiosyncratic forms of political emotion including crazy love disgust cynicism election fatigue and the myriad feelings of hatred and suspicion provoked by the figure of the hypocrite In so doing the book corrects critics too narrow focus on sympathy as the American novel s model political emotion We think of reform novels as fostering feeling for fellow citizens or for specific causes This volume argues that *Gilded Age* fiction refocuses attention on the unstable emotions that continue to shape our relation to politics as such
