New Japanese Political Economy And Political Reform:

New Japanese Political Economy and Political Reform Minoru Nakano, 2002 Fin dallo scoppio della bolla economica negli anni 1990 il Giappone stato stretto in una lunga recessione Non c era da aspettarsi di ripetere i risultati delle miracolose performances del passato ma semplicemente combattere per la sopravvivenza Questo drammatico cambiamento induce a riesaminare il sistema giapponese dal punto di vista della teoria e della pratica Annotation Supplied by Informazioni Editoriali *Japanese Political Economy Revisited* David Chiavacci, Sébastien Lechevalier, 2020-11-25 During the last 30 years the Japanese political economy system has experienced significant changes that are usually not well understood or analysed because of their complexity and contradictions This book provides new analyses and insights on the process of evolving Japanese political economy including Japan s current economic policy known as Abenomics The first three chapters looks at evolutions at the corporate level characterised in recent years by increasing firm heterogeneity The authors apply theoretically driven analyses to the complex subject of corporate governance human resource management and corporate reporting by discussing new developments in context of their economic opportunities as well as of their institutional contradictions with continuities in Japanese business practices The second group of chapters deals with institutional changes and evolving economic reforms on the macro level of political economy The two chapters focus on the financial system regulation and economic growth policies as two central elements of Japan s political economy and key drivers in the evolution of its economy Their analysis allows us to better understand the interplay between reforms and change in consumption credit and to reinterpret Abenomics as a manifestation of ongoing contradictions within the Japanese political economy The chapters were originally published in a special issue in Japan Forum [Japan Transformed](#) Frances Rosenbluth, Michael F. Thies, 2010-04-12 With little domestic fanfare and even less attention internationally Japan has been reinventing itself since the 1990s dramatically changing its political economy from one managed by regulations to one with a neoliberal orientation Rebuilding from the economic misfortunes of its recent past the country retains a formidable economy and its political system is healthier than at any time in its history Japan Transformed explores the historical political and economic forces that led to the country s recent evolution and looks at the consequences for Japan s citizens and global neighbors The book examines Japanese history illustrating the country s multiple transformations over the centuries and then focuses on the critical and inexorable advance of economic globalization It describes how global economic integration and urbanization destabilized Japan s postwar policy coalition undercut the ruling Liberal Democratic Party s ability to buy votes and paved the way for new electoral rules that emphasized competing visions of the public good In contrast to the previous system that pitted candidates from the same party against each other the new rules tether policymaking to the vast swath of voters in the middle of the political spectrum Regardless of ruling party Japan s politics economics and foreign policy are on a neoliberal path Japan Transformed combines broad context and comparative analysis to provide an accurate understanding of Japan s

past present and future *The Political Economy of the Abe Government and Abenomics Reforms* Takeo Hoshi, Phillip Y. Lipsky, 2021-02-25 Explores the politics and economics of the Abe government and evaluates major policies such as Abenomics policy reforms U.S.-Japan Policy and the New Japanese Government United States. Congress. House.

Committee on Foreign Affairs. Subcommittee on Economic Policy, Trade, and Environment, 1994 **The Political Economy of the New Asian Industrialism** Frederic C. Deyo, 2018-08-06 The newly industrializing countries NICs of East Asia have undergone rapid economic expansion over the past twenty years Unlike NICs elsewhere in the Third World those in the Pacific basin South Korea Taiwan Singapore and Hong Kong have managed to achieve almost full employment a relatively egalitarian distribution of income and the virtual elimination of poverty In this collection of essays nine development specialists explore the Asian NICs exceptional ability to capitalize on the favorable economic environment of the 1960s and then to adapt flexibly to worsening conditions in the 1970s and 1980s *Economic Policy Reform* Anne O. Krueger, 2000 Anne O Krueger has assembled and deftly summarized an excellent set of papers on the major issues in economic reform in developing countries at the turn of the century Stanley Fischer International Monetary Fund The papers and commentary collected in this volume discuss vital contemporary thinking on economic policy reform in particular the difficulties that leave so much of the world mired in poverty Distinguished contributors address issues ranging from education and privatization to exchange rates and telecommunications reform providing an excellent overview of the current situation and the possible paths into the future **The Political Economy of Educational Reforms and Capacity Development in Southeast Asia** Yasushi Hirosato, Yuto Kitamura, 2009-02-07 Yasushi Hirosato and Yuto Kitamura Developing countries including Southeast Asian countries face an enormous challenge in ensuring equitable access to quality education in the context of deepening globalization and increasing international competition They must simultaneously meet the goals of Education for All EFA at the basic education level and of developing a more sophisticated workforce required by the knowledge based economy at the post basic especially tertiary education level To meet this challenge developing countries need to reform renovate their education systems and service deliveries as an integral part of national development However most of them have not yet fully developed the individual institutional and system capacities in undertaking necessary education reforms especially under decentralization and privatization requiring new roles at various central and local or public and private levels of administration and stakeholders Provided that an ultimate vision of educational development and cooperation in the twenty first century would be to develop indigenous capacity in engineering education reforms this book analyzes the overall education reform context and capacity including the status of sector program support using the sector wide approach SWAp program based approach PBA in developing countries We also address how different stakeholders have been interacting in order to promote equitable access to quality education particularly from the perspectives of capacity development under the system of decentralization **The Political Economy of Policy Reform** John Williamson, 1994 Policymakers around the

world have increasingly agreed that macroeconomic discipline microeconomic liberalization and outward orientation are prerequisites for economic success But what are the political conditions that make economic transformation possible At a conference held at the Institute for International Economics leaders of economic reform recounted their efforts to bring about change and discussed the impact of the political climate on the success of their efforts In this book these leaders explore the political conditions conducive to the success of policy reforms Did economic crisis strengthen the hands of the reformers Was the rapidity with which reforms were instituted crucial Did the reformers have a honeymoon period in which to transform the economy The authors answer these and other questions as well as providing first hand accounts of the politically charged atmosphere surrounding reform efforts in their countries
