Stypczynski, 2021-10-25 Constructing a functional system of magic that helps readers suspend disbelief is a crucial part of worldbuilding in the fantasy genres Yet creating a believable compelling and original fictional universe can be daunting To help inspire writers this guide provides an overview of how magic has been understood in history and used in myth legend and modern fiction Different forms of magic are explored and a broad range of stories from Nordic myths to modern novels are described and referenced Discussion explores how magic as a concept shapes and is shaped by fictional worlds and societies Magic's Translations Margaret J. Wiener, 2025-04-04 Do you believe in magic This familiar question suggests magic is easily recognized but unreal In *Magic's Translations* Margaret J Wiener argues that such views are shaped by historical power struggles especially in Europe's relations with the wider world Focusing on nineteenth and twentieth century Dutch interactions with Indonesians Wiener reveals how colonial agents framed unfamiliar practices practitioners and objects as magic rendering distinct phenomena fundamentally alike and advancing colonizing projects that deemed magic antithetical to reason and reality While colonial authorities including ethnologists mobilized the concept of magic to differentiate Europeans from Indonesians nature from culture reason from superstition and fact from fetish their efforts produced unexpected outcomes Some Indonesian artifacts and acts not only retained their power but invaded European experiences As anthropologists were among the key translators of magic throughout the world Wiener intersperses accounts of magic's translations in the Indies with reflections on anthropology's ongoing engagement with the concept She
