students of social and cultural history **Food and Cultural Studies** Bob Ashley, Joanne Hollows, Steve Jones, Ben Taylor, 2004-08-02 What and how we eat are two of the most persistent choices we face in everyday life Whatever we decide on though and however mundane our decisions may seem they will be inscribed with information both about ourselves and about our positions in the world around us Yet food has only recently become a significant and coherent area of inquiry for cultural studies and the social sciences Food and Cultural Studies re examines the interdisciplinary history of food studies from a cultural studies framework from the semiotics of Barthes and the anthropology of Levi Strauss to Elias historical analysis and Bourdieu's work on the relationship between food consumption and cultural identity The authors then go on to explore subjects as diverse as food and nation the gendering of eating in the phenomenon of TV chefs the ethics of vegetarianism and food risk and moral panics **Making Slow Food Fast in California Cuisine** Victor W.

Geraci, 2017-03-02 This book follows the development of industrial agriculture in California and its influence on both regional and national eating habits Early California politicians and entrepreneurs envisioned agriculture as a solution to the food needs of the expanding industrial nation The state's climate geography vast expanses of land water and immigrant workforce when coupled with university research and governmental assistance provided a model for agribusiness In a short time the San Francisco Bay Area became a hub for guaranteeing Americans access to a consistent quantity of quality foods To this end California agribusiness played a major role in national food policies and subsequently produced a bifurcated California Cuisine that sustained both Slow and Fast Food proponents Problems arose as mid twentieth century social activists battled the unresponsiveness of government agencies to corporate greed food safety and environmental sustainability By utilizing multidisciplinary literature and oral histories the book illuminates a more balanced look at how a California Cuisine embraced Slow Food Made Fast The Food Movement, Culture, and Religion Jonathan Schorsch, 2017-12-12 This book

explores the cultural and religious politics of the contemporary food movement starting from the example of Jewish foodies their zeal for pig forbidden by Jewish law and their talk about why ignoring traditional precepts around food is desirable Focusing on the work of Michael Pollan Jonathan Schorsch questions the modernist materialist and rationalist worldview of many foodies and discusses their lack of attention to culture tradition and religion **Food and the Self** Isabelle de Solier, 2013-10-10 We often hear that selves are no longer formed through producing material things at work but by consuming them in leisure leading to meaningless modern lives This important book reveals the cultural shift to be more complex demonstrating how people in postindustrial societies strive to form meaningful and moral selves through both the consumption and production of material culture in leisure Focusing on the material culture of food the book explores these theoretical questions through an ethnography of those individuals for whom food is central to their self foodies It examines what foodies do and why they do it through an in depth study of their lived experiences The book uncovers how food offers a means of shaping the self not as a consumer but as an amateur who engages in both the production and consumption of

material culture and adopts a professional approach which reveals the new moralities of productive leisure in self formation The chapters examine a variety of practices from fine dining and shopping to cooking and blogging and include rare data on how people use media such as cookbooks food television and digital food media in their everyday life This book is ideal for students scholars and anyone interested in the meaning of food in modern life **Food in Motion** Alan Davidson,1983

Food and Crime Chris Garcia,2023-09-30 Anyone alive and wanting to stay that way must deal with food Crime is and always has been present Food and Crime examines the crossroads of these two universal forces how hunger can lead to theft fraud and murder and how the well fed will sometimes do anything to keep their bellies full From the one timers to the career caper planners food criminals are a wide ranging often audacious bunch and this is the record of their impact great and small From a war fought by the Mayor of New York over tasty thistles to the role McDonald s plays in the American culinary conscious to how foreign food aid abuse led to a mighty fall in the financial sector these sixteen stories of criminals who engage with the world of cuisine cookery or agriculture cover food and crime from the piddliest pilfering to the most diabolical murders Covering the period from the Ancient Greeks who invented insurance fraud to the effects of COVID 19 on seafood crime in the true crime capital of America Florida here s clear evidence that there s never been a time when food and crime were not intimately entangled Food and Crime sheds light on the unexpected and sometimes unbelievable connections between two things that we can never seem to get enough of Foodies and Food Tourism Donald Getz,Richard Robinson,Tommy Andersson,Sanja Vujicic,2014-09-30 Foodies and Food Tourism supplies comprehensive new evidence and theory based overview of the phenomenon of food tourism and how it is being or should be developed and marketed and understood Memorable Customer Experiences Joëlle Vanhamme,2016-04-22 Experiential marketing or memorable customer experiences is proving a popular tool amongst businesses seeking to make an impact in a competitive world Yet the scramble to achieve a presence among experience providers has led many companies to design and implement experiential marketing without integrating it with their overall marketing strategy These companies often end up dissatisfying their customers rather than delighting them This research anthology investigates different angles of experiential marketing The 16 chapters are organised in six sections The first section considers whether memorable customer experiences result from the use of traditional marketing practices perhaps implemented more effectively than previously or require entirely new practices with new foundations that turn companies into experience providers Section two details ways businesses seek to build brands through putting experiential marketing into practice while section three asks whether there are general principles that can be applied to the design of customer experiences which ensure successful outcomes whatever market you may operate in Section four examines how companies manage their customer experiences once they have made the strategic decision to provide them and section five looks at methods available to evaluate the success of these customer experiences Experiential marketing changes everything claim the management gurus but is it really so significant that not joining this

race is dangerous The last section of the book offers a much needed critique of experiential marketing **Taste** Kate Colquhoun,2012-05-01 From the Iron Age to the Industrial Revolution the Romans to the Regency few things have mirrored society or been affected by its upheavals as much as the food we eat and the way we prepare it In this involving history of the British people Kate Colquhoun celebrates every aspect of our cuisine from Anglo Saxon feasts and Tudor banquets through the skinning of eels and the invention of ice cream to Dickensian dinner party excess and the growth of frozen food Taste tells a story as rich and diverse as a five course dinner **Sustainable Consumption and the Good Life** Karen Lykke Syse,Martin Lee Mueller,2014-11-20 What does it mean to live a good life in a time when the planet is overheating the human population continues to steadily reach new peaks oceans are turning more acidic and fertile soils the world over are eroding at unprecedented rates These and other simultaneous harms and threats demand creative responses at several levels of consideration and action Written by an international team of contributors this book examines in depth the relationship between sustainability and the good life Drawing on wealth of theories from social practice theory to architecture and design theory and disciplines such as anthropology and environmental philosophy this volume promotes participatory action research based approaches to encourage sustainability and wellbeing at local levels It covers topical issues such the politics of prosperity globalization and indigenous notions of the good life and happiness Finally it places a strong emphasis on food at the heart of the sustainability and good life debate for instance binding the global south to the north through import and exports or linking everyday lives to ideals within the dream of the good life with cookbooks and shows This interdisciplinary book provides invaluable insights for researchers and postgraduate students interested in the contribution of the environmental humanities to the sustainability debate **The Oxford Companion to Food** Alan Davidson,2014-08-21 the best food reference work ever to appear in the English language read it and be dazzled Bee Wilson New Statesman First published in 1999 the ground breaking Oxford Companion to Food was an immediate success and won prizes and accolades around the world Its blend of serious food history culinary expertise and entertaining serendipity was and remains unique Interest in food cooking and the culture surrounding food has grown enormously in the intervening period as has the study of food and food history University departments international societies and academic journals have sprung up dedicated to exploring the meaning of food in the daily lives of people around the world alongside an ever increasing number of articles books programmes and websites in the general media devoted to the discussion of food making the Oxford Companion to Food more relevant than ever Already a food writing classic this Companion combines an exhaustive catalogue of foods be they biscuits named after battles divas or revolutionaries body parts from nose to tail toe to cerebellum or breads from the steppes of Asia or the well built ovens of the Mediterranean with a richly allusive commentary on the culture of food expressed in literature and cookery books or as dishes peculiar to a country or community While building on the Companion s existing strengths Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food
