The Mystery of Musical Creativity Hermann Beckh, 2019-11-06 Beckh ventures into provinces that I have not had the opportunity of investigating myself Rudolf Steiner Lost for decades the manuscript of Hermann Beckh's final lectures on the subject of music present fundamentally new insights into its cosmic origins Beckh characterises the qualities of musical development examines select musical works that represent for him the peak of human ingenuity and throws new light on the nature and source of human creativity and inspiration Published here for the first time the lectures demonstrate a distinctive approach founded on the raw material of musical perception Beckh discusses the whistling wind the billowing wave the song of the birds and particularly the theme of longing Never losing the ground from under his feet he penetrates perennial themes from the yearning for real spontaneity and the Mystery background uniting heaven and earth to spiritual knowledge that can meet the demands of the twenty first century Out of the cosmic context Beckh writes to the individual situation From there he seeks again the re won cosmic context He does not write as a musical specialist and then turn to universal human concerns rather Beckh writes from universal human concerns and reveals music as of special concern to everyone In addition to the transcripts of fifteen lectures this book contains a valuable introduction and editorial footnotes It also features appendices including Beckh's essay The Mystery of the Night in Wagner and Novalis reminiscences of Beckh by August Pauli and Harro R ckner Donald Francis Tovey's Wagnerian harmony and the evolution of the Tristan chord and several contemporaneous reviews of Beckh's published works

Arthur Schopenhauer Dan Farrelly, 2015-04-01 This book is a translation of David Asher's text *New Material by Schopenhauer and about Schopenhauer* Readers who are interested in Schopenhauer the man and his philosophy can see from the 24 letters written to David Asher clear evidence of the philosopher's struggle to gain recognition in a Germany where Fichte Schelling and Hegel and their disciples were the dominant forces The letters show Schopenhauer after 30 years of being ignored by the universities in Germany coming into his own He is enormously appreciative of the dedicated service of Asher who seeks out and relays to him all that he can find about the resonance of his work in Germany and abroad Asher himself as a Jew was largely ignored after Schopenhauer's death In the book by Lindner and Frauenst dt Schopenhauer By him and about him Asher was dismissively referred to as the little apostle whereas in fact he was the main apostle Apart from the letters he received from Schopenhauer Asher also includes the essay he published about Schopenhauer's theory of music along with a musicologist's sober assessment of its value Another essay on the Jewish thinker Salomon Ibn Gebirol indicates Asher's conviction that Schopenhauer's thought is not radically removed from that of Judaism of a particular kind A further essay on individual character indicates the affinity of Schopenhauer's thought to that of Kant The final section of the book gathers material that indicates the reception of Schopenhauer's philosophy in France England and Germany
