A Guide to Building Education Partnerships Matthew T. Hora,Susan B. Millar,2023-07-03 Education partnerships are central to and often a requirement of most education reform initiatives promoted by state and local governments by foundations and by business funders Many fail for failure to understand the dynamics of their complex

relationships This book provides insights and guidance to enable prospective and existing education partners to develop answers to the questions that are critical to success Why engage in this partnership How can you communicate the potential benefits of partnership to motivate teachers faculty administrators and community members How do you select the best organizational structure and procedures for a partnership How can you maintain open deliberative discussion while respecting different histories and cultures How can you produce compelling evidence that the partnership is worthwhile Based on their observation of a five year long publicly funded partnership research data and the literature the authors identify the principles that they consider critical to answering these questions The authors do not minimize the differences and complexities inherent in partnership work because they believe that doing so would be to present coherence and homogeneity where none exists Instead they seek to make evident how these principles underlie many different partnership situations Thus rather than presenting a package of best practices or a cookie cutter approach this book presents the organizational principles for planning and implementing education partnerships along with sets of strategies for working through them The authors present the diagnostic tools for undertaking a deliberate and research based approach to planning designing and managing a partnership By surfacing participants often differing motivations and the practices and assumptions they bring to the table the book provides the foundation for developing a constructive relationship In scope the book extends beyond school university partnerships to include schools collaboration with state and local governments nonprofit organizations and the business sector
