experiences and encounters are situated. It aims to foster a concept based interdisciplinary dialogue on how to approach and theorize such a term. Based on the premise that concepts travel through times, contexts and discursive settings, a conceptual approach to passages provides the authors of this volume with the analytical tools to refocus their research questions and create a meaningful exchange across disciplinary, national and linguistic boundaries. Contributions from senior scholars and early career researchers whose work focuses on areas such as cultural memory, performativity, space, media, cultural translation, ecocriticism, gender and race, utilize specific understandings of passages and liminality, reflecting on their value and limits for their research.

A Voluptuous God Robert V. Thompson, 2007. Voluptuous may not be a common word associated with God, but the author speaks metaphorically of God in a way that calls us to laughter, love and joy. Voluptuousness as full delight and invites us to worship a God of intimacy rather than a God of distance. The light yet not trivial tone of this work supports the author's basic premise that we are meant to live our humanity joyfully, thankfully and fully from our hearts. The book is rooted in the Christian tradition but affirms that truth can also be found in other religions, spirituality and secular practices.

Race-ing Representation Kostas Myrsiades, Linda S. Myrsiades, 1998. This collection takes on the problem of representing race in the context of a master language and culture. These essays discuss this problem in terms of the ongoing struggle to redefine the self as speaker that is to reconstrue our understanding of history, sexuality and speech itself in a continuing battle for self definition. As a totality, these essays explode the notion of race as a natural boundary between groups and pose a variety of possible constructions that force us to accept race not as a category but as a practice. Kostas and Linda Myrsiades have brought together scholars whose varied essays explore the issues of voice, history and sexuality in such diverse venues as detective fiction, the Clarence Thomas hearings, the witches of Salem, the Harlem Renaissance and the work of Toni Morrison, demonstrating that resistance to race-ing is both meaningfully engaged as a cultural possibility and rewritten as a linguistic practice.

The Queer Renaissance Robert McRuer, 1997-06. The Queer Renaissance puts a name to the unprecedented outpouring of creative work by openly lesbian and gay novelists, poets and playwrights in the past two decades. This volume is one of the first to critically analyze this cultural awakening and is one of the only books to consider the work of gay male and lesbian writers together. Most importantly, it is the first book to consider how this wave of creative activity has worked in tandem with a flourishing of radical queer politics. The Queer Renaissance explores the work of such important figures as Audre Lorde, Edmund White, Randall Kenan, Gloria Anzaldúa, Tony Kushner and Sarah Schulman to question the dichotomy

between art and activism In addition it interrogates the ways queer theory deploys intersects with and contests contemporary theoretical movements such as cultural studies feminist theory African American theory and Chicano a theory
