

“Political agitation, by the passions it arouses or the convictions it engenders, may in fact stimulate men to the violation of the law. Detestation of existing policies is easily transformed into forcible resistance of the authority which puts them in execution, and it would be folly to disregard the causal relation between the two. Yet to assimilate agitation, legitimate as such, with direct incitement to violent resistance, is to disregard the tolerance of all methods of political agitation which in normal times is a safeguard of free government.”

Passions And Convictions In Matters Political:

Emotional Governance B. Richards, 2007-10-17 This lucid and original work argues for a new style of political leadership one which pays deliberate and sophisticated attention to the emotional dynamics of the public A case study of terrorism as a highly emotional topic and as a key political issue in many liberal democracies grounds the book's ideas in today's political landscape

Recognition and Power Bert van den Brink, David Owen, 2007-04-09 The topic of recognition has come to occupy a central place in debates in social and political theory Developed by George Herbert Mead and Charles Taylor it has been given expression in the program for Critical Theory developed by Axel Honneth in his book *The Struggle for Recognition* Honneth's research program offers an empirically insightful way of reflecting on emancipatory struggles for greater justice and a powerful theoretical tool for generating a conception of justice and the good that enables the normative evaluation of such struggles This 2007 volume offers a critical clarification and evaluation of this research program particularly its relationship to the other major development in critical social and political theory namely the focus on power as formative of practical identities or forms of subjectivity proposed by Michel Foucault and developed by theorists such as Judith Butler James Tully and Iris Marion Young

Mourning in America David W. McIvor, 2016-10-20 In *Mourning in America* McIvor addresses significant and urgent questions about how citizens can mourn traumatic events and enduring injustices in their communities McIvor offers a framework for analyzing the politics of mourning drawing from psychoanalysis Greek tragedy and scholarly discourses on truth and reconciliation

Passion, Politics, and Philosophie Leonore Loft, 2001-10-30 Jacques Pierre Brissot was among the major architects of the French Revolution yet history has vilified and then dismissed him His early intellectual development was strongly influenced by Enlightenment ideas and aspirations However his own remarkable construct of a just democratic society universal suffrage and a renewed humanity living in moral and political freedom foreshadowed many present day ideologies The prevailing view of Brissot has pigeonholed him as Brissot the police spy a label difficult to remove Although this contention has been disputed at some length Loft presents an alternative view of the forces that shaped Brissot's social and political activism Tracing the gradual evolution of his ideology from its earliest stages reveals that he did not suddenly become a radical in the mid 1780s An open objective and thorough evaluation of Brissot's work uncovers the roots of his lifelong commitment to reformist egalitarian and democratic ideals To understand Brissot the man and his work one must assess the cultural intellectual and political influences that surrounded him Loft offers the necessary fusion of text and context providing a serious reconsideration of Brissot and his contributions to the history of human rights Scholars and other researchers of the French Revolution and European political thought will find this study of particular value

Baptist Political Theology Thomas S. Kidd, Paul D. Miller, Andrew T. Walker, 2023-07-01 Baptist ideals like the separation of church and state have indelibly shaped Western democracies and Baptist thinkers continue to influence public policy and political engagement today Yet the historical contours enduring commitments and current contributions of Baptist political thought are little understood Baptist Political Theology edited by scholars Thomas Kidd Paul Miller and Andrew Walker introduces readers to the full sweep of Baptist engagement with politics Part 1 reviews the life writings and political activity of important figures in Baptist history as well as Baptist involvement in key historical eras and episodes Part 2 presents a collective effort at applied political theology with essays relating Baptist principles to a range of contemporary issues This monumental volume sheds light on the history and contemporary practice of Baptists in the public square offering context and clarity for Baptist political thought in the years to come

The Language of Passion Mario Vargas Llosa, 2024-09-04 Internationally acclaimed novelist Mario Vargas Llosa has contributed a biweekly column to Spain's major newspaper *El País* since 1977 In this collection of columns from the 1990s Vargas Llosa weighs in on the burning questions of the last decade including the travails of Latin American democracy the role of religion in civic life and the future of globalization But Vargas Llosa's influence is hardly limited to politics In some of the liveliest critical writing of his career he makes a pilgrimage to Bob Marley's shrine in Jamaica celebrates the sexual abandon of Carnival in Rio and examines the legacies of Vermeer Bertolt Brecht Frida Kahlo and Octavio Paz among others

Bureaucrats and Politicians in Western Democracies Joel D. ABERBACH, Robert D. Putnam, Bert A. Rockman, Joel D. Aberbach, 2009-06-30 In uneasy partnership at the helm of the modern state stand elected party politicians and professional bureaucrats This book is the first comprehensive comparison of these two powerful elites

Derrida, Badiou and the Formal Imperative Christopher Norris, 2012-08-02 In this path breaking study Christopher Norris proposes a transformed understanding of the much exaggerated differences between analytic and continental philosophy While keeping the analytic tradition squarely in view his book focuses on the work of Jacques Derrida and Alain Badiou two of the most original and significant figures in the recent history of ideas Norris argues that these thinkers have decisively reconfigured the terrain of contemporary philosophy and between them pointed a way beyond some of those seemingly intractable issues that have polarised debate on both sides of the notional rift between the analytic and continental traditions In particular his book sets out to show against the received analytic wisdom that continental philosophy has its own analytic resources and is capable of

bringing some much needed fresh insight to bear on problems in philosophy of language logic and mathematics Norris provides not only a unique comparative account of Derrida's and Badiou's work but also a remarkably wide ranging assessment of their joint contribution to philosophy's current if widely resisted potential for self transformation

Theology of Discontent Hamid Dabashi, 2017-07-28 Scores of books and articles have been published addressing one or another aspect of the Islamic Revolution in Iran Missing from this body of scholarship however has been a comprehensive analysis of the intellectual and ideological cornerstones of one of the most dramatic revolutions in our time In this remarkable volume Hamid Dabashi brings together in a sustained and engagingly written narrative the leading revolutionaries who have shaped the ideological disposition of this cataclysmic event Dabashi has spent over ten years studying the writings in their original Persian and Arabic of the most influential Iranian clerics and thinkers Examining the revolutionary sentiments and ideas of such figures as Jalal Aile Ahmad Ali Shariati Morteza Motahhari Sayyid Abolhasan Bani Sadr and finally the Ayatollah Khomeini the work also analyzes the larger historical and theoretical implications of any construction of the Islamic Ideology Carefully located in the social and intellectual context of the four decades preceding the 1979 revolution **Theology of Discontent** is the definitive treatment of the ideological foundations of the Islamic Revolution with particular attention to the larger more enduring ramifications of this revolution for radical Islamic revivalism in the entire Muslim world This volume will be of interest to Islamicists Middle East historians and specialists as well as scholars and students of liberation theologies comparative religious revolutions and mass collective behavior Bruce Lawrence of Duke University calls this volume a superb and unprecedented study In brilliant figural strokes he arrays EuroAmerican sociological theory as the crucial backdrop of a deeper understanding of contemporary Iranian history

Extraordinary Responsibility Shalini Satkunanandan, 2015-09-29 Careful attention to contemporary political debates including those around global warming the federal debt and the use of drone strikes on suspected terrorists reveals that we often view our responsibility as something that can be quantified and discharged Shalini Satkunanandan shows how Plato Kant Nietzsche Weber and Heidegger each suggest that this calculative or bookkeeping mindset both belongs to morality understood as part of our ordinary approach to responsibility and effaces the incalculable undischageable and more onerous dimensions of our responsibility These thinkers also reveal how the view of responsibility as calculable is at the heart of moralism the pettifogging mindless legalistic excessively judgmental or punitive policing of our own or others compliance with moral duties By elaborating their narratives of a difficult conversion to the open ended and relentless character of responsibility Satkunanandan explores how we might be less moralistic and more responsible in politics She ultimately argues for a political ethos attentive to how calculative thinking can limit our responsibility but that still accepts a circumscribed place for calculation and morality in responsible politics

[An Introduction to English Politics](#) John Mackinnon Robertson, 1900

Meditations on the Incarnation, Passion, and Death of Jesus Christ Catharina Regina von Greiffenberg, 2010-04-15 Read by Protestants and Catholics alike

Catharina Regina von Greiffenberg 1633-94 was the foremost German woman poet and writer in the seventeenth century German speaking world. Privileged by her social station and education, she published a large body of religious writings under her own name to a reception unequaled by any other German woman during her lifetime. But once the popularity of devotional writings as a genre waned, Catharina's works went largely unread until scholars devoted renewed attention to them in the twentieth century. For this volume, Lynne Tatlock translates for the first time into English three of the thirty-six meditations, restoring Catharina to her rightful place in print. These meditations foreground women in the life of Jesus Christ, including accounts of women at the Incarnation and the Tomb and in Scripture in general. Tatlock's selections give the modern reader a sense of the structure and nature of Catharina's devotional writings, highlighting the alternative they offer to the male-centered view of early modern literary and cultural production during her day and redefining the role of women in Christian history.

Citizen Politics In Post-industrial Societies Terry Nichols Clark, 2018-03-14. The past several decades have seen profound changes in the political landscapes of advanced industrial societies. This volume assesses key political developments and links them to underlying socioeconomic and cultural forces. These forces include the growth of a well-educated middle class, the moderating of bipolar class divisions between wealthy capitalists and struggling workers, and the accelerated rise of new media technologies, especially television, as potent tools shaping the terms of public discussion. Related political transformations include the spread of new social movements on feminist, environmental, and civil liberties issues; economic concerns focusing more on growth, taxes, and middle class programs than on redistribution; the fracturing of core left and right political ideologies; and the growing centrality of electronic media as carriers of political opinions and rhetoric. In their introduction, Terry Clark and Michael Rempel pull together many seemingly disparate political changes to construct a clear synthetic framework identifying eight core components of postindustrial politics. Part Two examines shifts in underlying cultural values. It features a lively exchange between different contributors over whether apolitical, materialistic values have risen or declined since the 1960s. Part Three offers an in-depth look at the political views and party allegiances of the growing middle classes, and Part Four examines some of today's most divisive issues. Although primarily adopting a cross-national perspective, *Citizen Politics in Post Industrial Societies* includes several case studies of

politics in the United States and one in Japan Unique in its synthetic vision this volume will stimulate and challenge readers from across the political and theoretical spectrum *Free Associations*, 2000 **Embracing the Passion** Nigel Pimlott, 2015-02-28 Convention suggests it is best not to talk about faith and politics this book talks about both It argues that Jesus was a political figure who championed the rights of the marginalised the oppressed and voiceless In this challenging and accessible book Nigel Pimlott argues young people are often marginalised oppressed and rarely heard in a world favouring the rich and powerful Young people are opinionated passionate about what they think is right and wrong and are concerned about the world they live in Yet research indicates young people are disengaged from mainstream political processes where they can express their views young adults have stopped voting in elections in unprecedented numbers This is something of a paradox Nigel contends that by more effectively equipping Christian youth workers and ministers to do politicking they will be able to better equip and disciple young people to be more politically engaged in their own contexts This unique research based book provides a concise overview of how youth workers might best help young people flourish and realise the common good It engages those interested in politics and more importantly encourages those not interested to get interested and make a difference in the world **The Politics of History** Arthur H. Shaffer, 2011-12-31 This is an analysis of the American Revolutionary generation s attempt to create a national history that would justify the Revolution and develop a sense of nationhood Shaffer pursues a number of themes and establishes a connection between the historians republican ideology political concerns and outlook and the precise ways in which they interpreted American history He also includes an analysis of their background education profession political persuasion personal ambitions and circumstances and attitudes toward the problem of union during the 1780s The writings here offer unusual insights into the mind of the Revolutionary generation The histories produced during the early national period represent the beginnings of a genre of writing new to America one characterized by the subjugation of history to the service of nationalism It is this element nationalism that gave this history its flavor made possible its achievement saddled it with difficulties and although unintentionally produced a tone and emphasis different from that of the Enlightenment The contribution of the Revolutionary generation of historians to the public identity represents an important aspect of the intellectual history of the early national period With all their frequent vagueness and imprecision of formulation almost incantatory repetitiousness and patriotic sentimentality the works of the first national generation of historians comprise a revealing effort to come to grips with the meaning of the Revolution and nationhood This striving charted much of the course that American historiography was to travel thereafter **A Passion for Society** Iain Wilkinson, Arthur Kleinman, 2016-01-26 What does human suffering mean for society And how has this meaning changed from the past to the present In what ways does the problem of suffering serve to inspire us to care for others How does our response to suffering reveal our moral and social conditions In this trenchant work Arthur Kleinman a renowned figure in medical anthropology and Iain Wilkinson an award winning sociologist team up

to offer some answers to these profound questions A Passion for Society investigates the historical development and current state of social science with a focus on how this development has been shaped in response to problems of social suffering Following a line of criticism offered by key social theorists and cultural commentators who themselves were unhappy with the professionalization of social science Wilkinson and Kleinman provide a critical commentary on how studies of society have moved from an original concern with social suffering and its amelioration to dispassionate inquiries The authors demonstrate how social action through caring for others is revitalizing and remaking the discipline of social science and they examine the potential for achieving greater understanding through a moral commitment to the practice of care for others In this deeply considered work Wilkinson and Kleinman argue for an engaged social science that connects critical thought with social action that seeks to learn through caregiving and that operates with a commitment to establish and sustain humane forms of society

America and the Political

Philosophy of Common Sense Scott Philip Segrest, 2009-12-01 From Aristotle to Thomas Jefferson seminal thinkers have declared common sense essential for moral discernment and civilized living Yet the story of commonsense philosophy is not well known today In America and the Political Philosophy of Common Sense Scott Segrest traces the history and explores the personal and social meaning of common sense as understood especially in American thought and as reflected specifically in the writings of three paradigmatic thinkers John Witherspoon James McCosh and William James The first two represent Scottish Common Sense and the third Pragmatism the schools that together dominated American higher thought for nearly two centuries Educated Americans of the founding period warmly received Scottish Common Sense Segrest writes because it reflected so well what they already thought and he uncovers the basic elements of American common sense in examining the thought of Witherspoon who introduced that philosophy to them With McCosh he shows the furthest development and limits of the philosophy and with it of American common sense in its Scottish realist phase With James he shows other dimensions of common sense that Americans had long embraced but that had never been examined philosophically Clearly Segrest's work is much more than an intellectual history It is a study of the American mind and of common sense itself its essential character and its human significance both moral and political It was common sense he affirms that underlay the Declaration of Independence and the founders' ideas of right and obligation that are still with us today Segrest suggests that understanding this foundation and James's refreshing of it could be the key to maintaining America's vital moral core against a growing alienation from common sense across the Western world Stressing the urgency of understanding and preserving common sense Segrest's work sheds new light on an undervalued aspect of American thought and experience helping us to perceive the ramifications of commonsense philosophy for dignified living
