Konrad Koerner a leading historian of linguistics has long said that an academic field cannot be considered to have matured until it has history as one of its subfields The history of linguistics is a growing area having come into its own in the 1960s especially after Noam Chomsky looked for historical roots for his work In contrast the history of language teaching has been neglected reflecting the insecurity and youth of the field Most works on the subject have been written by linguists for other linguists and typically focus on a specific period or aspect of history This volume concentrates on the basic issues events and threads of the history of the field from Mesopotamia to the present showing how a knowledge of this history can inform the practice of language teaching in the present **The Principles of Language-Study** Harold E. Palmer,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1921 edition Excerpt chapter xiv A rational order of progression one of the greatest differences between the oldfashioned manner of teaching languages and the new manner towards which we are feeling our way is a difference in what we call order of progression This term and the principle which is involved therein cannot at the present stage of our knowledge be defined in very categoric terms its connotation is somewhat loose for it may be applied to the general programme of study and also to any particular item of study In some ways the principle seems to have a close connexion with gradation and yet on the whole it appears to cover other ground for we can imagine entirely different orders of progression and each may be well or badly graded Under this particular heading we have to consider the order in which the various aspects and branches of a language may be dealt with We may conceivably work from the written to the spoken or vice versa we may start with systematic ear training and articulation exercises or leave these to a later stage we may advise or we may reject the use of a phonetic alphabet we may teach or we may leave intonation we may proceed from the word towards the sentence or we may take the sentence as our starting point we may exclude irregularities during the early stages or we may include them we may insist on a slow and distinct pronunciation at the outset

and leave abbreviations and shortened forms to a later stage In all these matters and in other cases as well we have to consider very seriously two alternatives we have to weigh the respective advantages and disadvantages remembering always that our object is to secure rapid but permanent progress Each of the pairs of alternatives enumerated above has been and
