this sectarian movement to legislate private religious morality into law undermines the purpose of American constitutional government the protection of the individual's right to determine how best to live his or her life The book starts from the premise that gay men and lesbians are first and foremost American citizens and then looks to what rights belong to every individual American citizen arguing from the Declaration of Independence and the Constitution Addressing their argument to the great majority of their fellow Americans Dawidoff and Nava emphasize that what is at stake is not the fate of the gay community but the future of constitutional principle and the rights of free individuals in American society

Emergent U.S. Literatures Cyrus Patell, 2014-11-07 Emergent U.S. Literatures introduces readers to the foundational writers and texts produced by four literary traditions associated with late twentieth century US multiculturalism Examining writing by Native Americans Hispanic Americans Asian Americans and gay and lesbian Americans after 1968 Cyrus R. K. Patell compares and historicizes what might be characterized as the minority literatures within U.S. minority literature Drawing on recent theories of cosmopolitanism Patell presents methods for mapping the

overlapping concerns of the texts and authors of these literatures during the late twentieth century He discusses the ways in which literary marginalization and cultural hybridity combine to create the grounds for literature that is truly emergent in Raymond Williams s sense of the term literature that produces new meanings and values new practices new relationships and kinds of relationships in tension with the dominant mainstream culture of the United States By enabling us to see the American literary canon through the prism of hybrid identities and cultures these texts require us to reevaluate what it means to write and read in the American grain Emergent U S Literatures gives readers a sense of how these foundational texts work as aesthetic objects rather than merely as sociological documents crafted in dialogue with the canonical tradition of so called American Literature as it existed in the late twentieth century as well as in dialogue with each other
