Mansueto,2010-04-07 No discipline has been more uniformly derided for a longer period than metaphysics Of the ancient and medieval sciences now in disrepute even astrology and alchemy get better press The most devastating and currently the most influential attack on metaphysics has come from a broad spectrum of thinkers including Kierkegaard Nietzsche Heidegger Arendt Levinas Derrida and Milbank who have argued that metaphysics is the root of modern nihilism and totalitarianism Anthony Mansueto puts this claim to the test developing a historical sociology of metaphysics that analyzes the social basis and political valence of metaphysical systems Mansueto does this globally and cross culturally engaging not only the Hellenic tradition and its extension into medieval Christendom and Dar al Islam but also the Indian and

Chinese traditions Specifically Mansueto argues that far from representing the roots of nihilism or modern state terror metaphysics emerges and continues to be necessary as a way to ground meaning and value in societies especially in market societies in which these have become problematic Metaphysics tends to restrain exploitation and to encourage the redirection of surplus toward activities that promote development of human capacities Knowing God The Journey of the Dialectic concludes with an outline of a new dialectical metaphysics that reconciles a Buddhist metaphysics of interdependence in the Hua yen tradition with a historicized metaphysics of Esse yielding results that look startlingly like the dao xue or neo Confucianism of Song China Mansueto shows how such a metaphysics can ground meaning and value while answering postmodern concerns to safeguard difference

The Self-Donation of God Jack D. Kilcrease, 2013-03-20 In *The Self Donation of God* Jack Kilcrease argues that the speech act of promise is always an act of self donation A person who unilaterally promises to another is bound to take a particular series of actions to fulfill that promise Being that creation is grounded in God's promising speech the divine human relationship is fundamentally one of divine self donation and human receptivity Sin disrupts this relationship and therefore redemption is constituted by a reassertion of divine promise of salvation in the face of the condemnation of the law Gen 3 15 As a new and effective word of grace the promise of a savior begins the process of redemption within which God speaks forth

a new narrative of creation In this new narrative God gives himself in an even deeper manner to humanity By donating himself through a promise first to the protological humanity and then to Israel he binds himself to them At the end of this history of self binding God in Christ enters into the condemnation of the law neutralizes it in the cross and brings about a new creation through his omnipotent word of promise actualized in the resurrection **What It Was All About** Steven H. Propp, 2015-12-07 The year is 1970 The Supreme Court has legalized abortion Equal Pay for Equal Work is now the law and Affirmative Action programs attempt to redress past injustices and inequities Women are coming together nationwide in consciousness raising groups sharing their knowledge and experiences with each other A group of six women in Stentoria California bond through such a group and support each other as women in this new Movement are forming collectives publishing their own books and periodicals creating an exciting new genre of Womens Music as well as starting their own bookstores to make these new materials readily available to the community New spiritual movements focused on the Divine Feminine principle are also beginning Even some men are sympathetic and supportive of these ideals But as the 1980s arrive the situation changes the backlash against the womens movement in politics and the media seemingly turns into a full fledged war specifically targeting the gains that women have achieved Opposition from traditional religions hardens and womens reproductive rights come under renewed attack the Equal Rights Amendment fails even as women themselves debate controversial questions such as banning pornography and how to view a rising Third Wave of the womens movement Ominously the threat of AIDS seemingly brings the era of sexual freedom to a close The six women deal with all these issues as well as personal challenges including balancing work and family responsibilities As the new century begins they reflect about what the womens movement ultimately accomplished In a world now characterized by growing economic inequality increasing low self esteem for some women exemplified by cosmetic surgery and extreme makeovers legalized same sex marriage and media attention to Transgender issues this book may help you to appreciate not only how far weve come but how far we have yet to go
