Seton-Watson and the Yugoslavs: 1906-1918** Hugh Seton-Watson, 1976 **R. W. Seton-Watson and the Yugoslavs** Robert William Seton-Watson, 1976 Annotations of documents in English *The formation of Croatian national identity* Alex Bellamy, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society An Historian in the Twentieth Century Max Beloff, Professor Max Beloff, 1992-01-01 Max Beloff one of Britain s most distinguished historians here offers an eloquent account of the relationship between history and politics in the twentieth century as seen from the perspective of his own professional life Lord Beloff opens the book with an account of his own route to professional history and the reasons he became involved in different areas of historical specialization He then reflects on the nature and purpose of historical studies in the light of current controversies on both sides of the Atlantic Beloff discusses the contemporary problems and opportunities of the nations he has studied and traversed during his half century as a working historian Britain France the United States Russia and Israel The last chapters deal with two major themes in Beloff s work that have formed a bridge between his scholarly contributions and his activity in politics the quest for European unity and the collapse of the European empires that recently culminated in the disintegration of the Soviet Union The book concludes with Beloff s provocative opinion that based on his work on the fall of the British

Empire the end of European imperialism is a matter not for rejoicing but for regret *Great Britain and the Creation of Yugoslavia* James Evans, 2008-07-30 The final weeks of World War I saw a revolutionary upheaval in Europe as old empires collapsed and new self proclaimed nation states emerged in their place For its advocates the Yugoslav state created in 1918 represented a largely uniform culture and identity But as its official name the Kingdom of the Serbs Croats and Slovenes suggested its population was by no means homogeneous Too late the British who had been instrumental in the birth of the state at Versailles as well as other Europeans and the Americans came to appreciate that divisions of religious affiliation and historical tradition continued to override linguistic unity James Evans analyses British ideas and assumptions about the region s history and culture and assesses how these were reshaped by newly prevalent ideas about Yugoslav nationality Attitudes and preconceptions first formed during this period would prove remarkably enduring making their mark on British responses to events in Yugoslavia throughout the country s troubled history *Great Britain and the Creation of Yugoslavia* sheds valuable light not only on attitudes to Yugoslav nationality in the early 20th century but also on western responses to the violent demise of the Yugoslav state at the century s close **Italy, Yugoslavia, and the Controversy over the Adriatic Region, 1915-1920** Stefano Bianchini, 2024-08-16 This book explores the path that led to the Treaty of Rapallo

1920 between Italy and the new Kingdom of the Serbs Croats and Slovenes later the Kingdom of Yugoslavia in the aftermath of the First World War when the territories of the former Austro Hungarian Empire were allotted to new and existing states with regard as far as possible to the nationalities of the people living in the various territories in addition to the future of Montenegro and Albania Based on vast archival documentation and published sources the contributors to this book discuss the nature of the disputes which arose in the Adriatic area often as the result of the inhabitants of the different territories being of several nationalities and examine how the disputes were concluded The book charts the disappointments of both Italians and Yugoslavs the Italians disappointed that the terms of the Treaty of London of 1915 which promised Dalmatia to Italy in return for Italy entering the war against the Austro Hungarian Empire were not fulfilled The Yugoslavs were disappointed losing territories containing large Yugoslav populations The volume considers public opinion the words positions and actions of leading politicians and the continuing consequences of the settlement many of them adverse consequences for particular cities and localities Presenting a comprehensive approach to the Adriatic controversy this book will be of interest to those studying European history of international relations diplomatic negotiations and nationalism modern history Central Asian Eastern European and Russian Studies **The National Question in Yugoslavia** Ivo

Banac, 2015-06-09 Even before it collapsed into civil war ethnic cleansing and dissolution Yugoslavia was an archetypical example of a troubled multinational mosaic a state without a single national base or even a majority Its stability and very existence were challenged repeatedly by the tension between the pressures for overarching political cohesion and the defense of separate national identities and aspirations In a brilliant analysis of this complex and sensitive national question

Ivo Banac provides a comprehensive introduction to Yugoslav political history. His book is a genetic study of the ideas, circumstances, and events that shaped the pattern of relations among the nationalities of Yugoslavia. It traces and analyzes the history and characteristics of South Slavic national ideologies, connects these trends with Yugoslavia's flawed unification in 1918, and ends with the fatal adoption of the centralist system in 1921. Banac focuses on the first two and a half years in the history of the Kingdom of the Serbs, Croats, and Slovenes because, in his view, this was the period that set the pattern for subsequent development of the national question. The issues that divided the South Slavs and that still divide them today took on definite form during that time, he maintains. Banac provides extensive treatment of all of Yugoslavia's nationalities; his sections on the Montenegrins, Albanians, Macedonians, and Bosnian Muslims are unique in the literature. In this unbiased account, all of the principals and groups assume a tragic fascination. When published in 1984, *The National Question in Yugoslavia* was the first complete introduction to the cultural history of the South Slavic peoples and to the politics of Yugoslavia, and it remains a major contribution to the scholarship on modern European nationalism and the stability of multinational states. *Encyclopedia of Historians and Historical Writing* Kelly Boyd, 2019-10-09. The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama. Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day, including individuals from related disciplines like Jürgen Habermas and Clifford Geertz, whose theoretical contributions have informed historical debate. Additionally, the *Encyclopedia* includes some 200 essays treating the development of national, regional, and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian, and Latin American historians and debates on gender and subaltern studies. *Austria-Hungary and the Origins of the First World War* Samuel R. Williamson Jr., 1990-12-12. A major re-examination of Habsburg decision making from 1912 to July 1914, the study argues that Austria-Hungary, and not Germany, made the crucial decisions for war in the summer of 1914. Based on extensive new archival research, the book traces the gradual militarization of Austro-Hungarian foreign policy during the Balkan Wars. The disasters of those wars and the death of the Archduke Franz Ferdinand, the heir apparent and a force for peace in the monarchy, convinced the Habsburg elite that only a war against Serbia would end the South Slav threat to the monarchy's existence. Williamson also describes Russia's assertive foreign policy after 1912 and stresses the unique linkages of domestic and foreign policy in almost every issue faced by Habsburg statesmen. *An Historian in Peace and War* T.G. Otte, 2016-04-15. The First World War and subsequent peace settlement shaped the course of the twentieth century, and the profound significance of these events were not lost on Harold Temperley, whose diaries are presented here. An established scholar and later one of Britain's foremost modern and diplomatic historians, Temperley enlisted in the army at the outbreak of the war in August 1914. Invalided home from the Dardanelles campaign in 1915, he spent the remainder of the war and its

aftermath as a general staff officer in military intelligence Here he played a significant role in preparing British strategy for the eventual peace conference and in finalising several post war boundaries in Eastern Europe Later in the 1920s and 1930s Temperley was to co edit the British diplomatic documents on the origins of the war and the vicissitudes of modern Great Power politics were to be his principal preoccupation Beginning in June 1916 the diary presents a more or less daily record of Temperley s activities and observations throughout the war and subsequent peace negotiations As a professional historian he appreciated the significance of eyewitness accounts and if Temperley was not at the very heart of Allied decision making during those years he certainly had a ringside seat Trained to observe accurately he recorded the concerns and confusions of wartime conscious always of the historical significance of what he observed As a result there are few sources that match Temperley s diary which presents a fascinating and unique perspective upon the politics and diplomacy of the First World War and its aftermath

Britain and Interwar Danubian Europe Dragan Bakic, 2017-05-04 Danubian Europe presented constant and serious security risks for European peace and stability and for that reason contrary to conventional wisdom it commanded the attention of British diplomacy with a view to appeasing local conflicts Britain and Interwar Danubian Europe examines the manner in which the Foreign Office perceived and treated the antagonism between the Little Entente comprised of Czechoslovakia Yugoslavia and Romania and Hungary on the one hand and revisionist Bulgaria and her neighbours in the Balkans on the other and the impact that these local conflicts had in connection with Franco Italian rivalry in Central South Eastern Europe With Hitler s accession to power Danubian Europe was viewed in Whitehall in relation to its place in the prospective policy for preserving Austrian independence and containing German aggression Dragan Bakic argues that the British approach to security problems in Danubian Europe had certain permanent features which stemmed from the general British outlook on the new successor states the members of the Little Entente founded on the ruins of the Habsburg monarchy This book shows that it was the lack of confidence in their stability and permanence as well as the misperceptions about the motives and intentions of the policies pursued by other Powers towards Central South Eastern Europe which accounted for the apparent sluggishness and ineffectiveness of the Foreign Office s dealings with security challenges Based on extensive original archival research this is a fascinating volume for any historian keen to know more about the 20th century history of East Central Europe or British foreign policy in the interwar years
