Race Over Grace The Racialist Religion Of The Christian Identity Movement:

Race Over Grace , Religious Truth and Identity in an Age of Plurality Peter Jonkers, Oliver J. Wiertz, 2019-08-05

This book deals with the intellectual aspects of having diverse religious expressions in proximity and the socio political consequences. It provides a multi disciplinary perspective on this complex subject cross fertilizing work on religious plurality with truth claims from theologians as well as philosophers from the continental and analytic traditions. The book includes three major parts. Part 1 explores the ideas around religious diversity and truth. Part 2 draws out the epistemic import of religious diversity and Part 3 concludes the volume by examining the practical and social aspects of religious diversity. Bringing a transdisciplinary perspective to a topic that remains at the forefront of conversation around the religious life of the world this book will be of great interest to scholars of Religious Studies, Theology and the Philosophy of Religion.

Three Perspectives: Jewish, Christian, and Muslim Steven H. Propp, 2009-12-30. You're Jewish, aren't you? This blunt question is the way that college freshman Richard Cohn is introduced to an outspoken fellow student named Dov Epstein who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days. Raised by secular Jewish parents, Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage. The two young men vigorously argue with each other over the interpretation of the Hebrew Bible, particularly its reputed predictions of a Messiah. Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth. The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov. The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures, anti-Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself. Circumstances in life connect them with a young Iranian migrant named Jahangir Khatami whose Muslim beliefs conflict strongly with their own. Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities. While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11, 2001. Join a diverse cast of characters some of whom appeared in the author's earlier book *Beyond Heaven and Earth* in a probing exploration that may help you reconsider just what it means to be Jewish, Christian or Muslim in the modern world.

Liberty Means Freedom for All Steven H. Propp, 2012-11 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science It's an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved
