Race and Racism in Modern Philosophy Andrew Valls, 2005 An innovative substantial intervention in critical race theory this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy Kant and the Concept of Race Jon M. Mikkelsen, 2013-08-01 Late eighteenth century writings on race by Kant and four of his contemporaries Kant and the Concept of Race features translations of four texts by Immanuel Kant frequently designated his Racenschriften race essays in which he develops and defends an early theory of race Also included are translations of essays by four of Kant's contemporaries E A W Zimmermann Georg Forster Christoph Meiners and Christoph Girtanner which illustrate that Kant's interest in the subject of race was part of a larger discussion about human differences one that impacted the development of scientific fields ranging from natural history to physical anthropology to biology Kant and the Systematicity of the Sciences Gabriele Gava, Thomas Sturm, Achim Vesper, 2025-04-29 This book provides the first comprehensive discussion regarding the role that Kant ascribes to systematicity in the sciences It considers not only what Kant has to say on systematicity in general but also how the systematicity requirement for science is specified in different fields of knowledge The chapters are divided into three thematic sections Part I is devoted to historical context The chapters explore precursors of Kant s account of the systematicity of the sciences Part II addresses the application of systematicity to the special sciences cosmology physics chemistry logic mathematics the life sciences and history Finally Part III explores the systematicity of philosophy Kant and the Systematicity of the Sciences will be of interest to scholars and advanced students working on Kant and the history and philosophy of science Black Rights/White Wrongs Charles W. Mills, 2017-03-01 Liberalism is the political philosophy of equal persons yet liberalism has refused equality to those it saw as sub persons Liberalism is the creed of fairness yet liberalism has been complicit with European imperialism and African slavery Liberalism is the classic ideology of Enlightenment and political transparency yet liberalism has cast a dark veil over its actual racist past and present In sum liberalism's promise of equal rights has historically been denied to blacks and other people of color In Black Rights White Wrongs The Critique of Racial Liberalism political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in self conceived liberal polities today Mills argues that rather than bracket as an anomaly the role of racism in the development of liberal theory we should see it as shaping that theory in fundamental ways As feminists have urged us to see the dominant form of liberalism as a patriarchal liberalism so too Mills suggests we should see it as a racialized liberalism It is unsurprising then if contemporary liberalism has yet to deliver on the recognition of black rights and the correction of white wrongs These essays look at racial liberalism past and present white ignorance as a guilty ignoring of social reality that facilitates white racial domination Immanuel Kant's role as the most important liberal theorist of both personhood and sub personhood the centrality of racial exploitation in the United States and the evasion of white

supremacy in John Rawls s ideal theory framing of social justice and in the work of most other contemporary white political philosophers Nonetheless Mills still believes that a deracialized liberalism is both possible and desirable He concludes by calling on progressives to Occupy liberalism and develop accordingly a radical liberalism aimed at achieving racial justice

This book further qualifies the postcolonial thesis and shows its limits. To reach these goals it links text analysis and political history on a global comparative scale Focusing on imperial agents their narratives of progress and their political aims and strategies it asks whether Enlightenment gave birth to a new colonialism between 1760 and 1820. Has Enlightenment provided the cultural and intellectual origins of modern colonialism. For decades historians of political thought philosophy and literature have debated this question. On one side many postcolonial authors believe that enlightened rationalism helped delegitimize non European cultures. On the other side some historians of ideas and literature are willing to defend at least some eighteenth century philosophers whom they consider to have been anti-colonialists. Surprisingly enough both sides have focused on literary and philosophical texts but have rarely taken political and social practice into account
