Researching

Black Communities James S. Jackson, Cleopatra Howard Caldwell, Sherrill L. Sellers, 2012-09-14 Experts from a range of disciplines offer practical advice for conducting social science research in racial and ethnic minority populations. Readers will learn how to choose appropriate methods: longitudinal studies, national surveys, quantitative analysis, personal interviews, and other qualitative approaches, and how best to employ them for research on specific demographic groups. The volume opens with a brief introduction to the difficulty of defining a population and designing a research program, and then moves to illustrative examples drawn from the contributors' own studies of Blacks in the United States, the Caribbean, and South Africa. Case studies cover research on the media, mental health, churches, work, marital relationships, education, and family roles.

*Race, Ethnicity, and Place in a Changing America, Third Edition* John W. Frazier, Eugene L. Tettey-Fio, Norah F. Henry, 2016-12-29 Uses both historical and contemporary case studies to examine how race and ethnicity affect the places we live, work, and visit. This book examines major Hispanic, African, and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present, with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes. Through both historical and contemporary case studies, the contributors examine how race and ethnicity affect the places we live, work, and visit, illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups. While primarily addressed to students and scholars in the fields of racial and ethnic geography, these case studies will be accessible to anyone interested in race-place connections, race-ethnicity boundaries, the development of racialization, and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico. Taken together, they show how individuals and culture groups, through their ideologies, social organization, and social institutions, reflect both local and regional processes of place-making and place-remaking that occur within and beyond the continental United States.

Ingham, 2013-11-14 Sir Arthur Lewis was the first development economist, the first Afro-Caribbean to hold a professorial chair at a British university, and the first black man to win the Nobel prize for economics. **South Korea's Engagement with Africa** Yongkyu Chang, 2019-12-11 This book represents the first scholarly attempt to summarize and analyze how Korea's relationship with Africa has been shaped in policy and non-policy aspects. It shows how far it has come and where it goes. The book recognizes that Korea-Africa relations, though relatively new, break ground by acknowledging the importance of a diligent endeavor to carry out post-colonial development and have continued to grow as we find promising progress and opportunities in the mutual cooperation between the two. This book is all-inclusive, covering Korea's academic, economic, diplomatic, and civil engagements with Africa. It investigates untold aspects of Korea-Africa relations.
