**The Melancholy of Race** Anne Anlin Cheng, 2001 Cheng proposes that racial identification is itself already a melancholic act a social category that is imaginatively supported through a dynamic of loss and compensation by which the racial other is at once rejected and retained Using psychoanalytic theories on mourning and melancholia as inroads into her subject Cheng offers a closely observed and carefully reasoned account of the minority experience as expressed in works of art by and about Asian Americans and African Americans She argues that the racial minority and dominant American culture both suffer from racial melancholia and that this insight is crucial to a productive reimagining of progressive politics

*Race and Identity in Hispanic America* Patricia Reid-Merritt, Michael S. Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the

horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States Race, Ethnicity, and Place in a Changing America John W. of inequality across American politics and society using race as a lens for the exploration of major themes in American history. It considers the concept of race as a social construction against the background of the historical struggles for fairness in a society based on the framework of democracy whose principle is that majority's consent be necessary for the fulfillment of justice. Foregrounding problems of race capital and political economy, it particularly examines the connections between race and class, the relationship of slavery and national politics, and the distinctive intellectual framework that Americans have developed to discuss race. Offering a detailed account of civil rights legislation, an overview of immigration law and policy, and comprehensive overviews of debates about affirmative action, immigration, and the causes and solutions to racialized urban poverty, this book emphasizes what is distinctive about the United States and offers a unique comparative framework for thinking about America's racial past.

From publisher description: *Race, Rights, and the Asian American Experience* Angelo N. Ancheta, 2006. In *Race Rights and the Asian American Experience*, Angelo N. Ancheta demonstrates how United States civil rights laws have been framed by a black-white model of race that typically ignores the experiences of other groups, including Asian Americans. When racial discourse is limited to antagonisms between black and white, Asian Americans often find themselves in a racial limbo, marginalized or unrecognized as full participants. A skillful mixture of legal theories, court cases, historical events, and personal insights, this revised edition brings fresh insights to U.S. civil rights from an Asian American perspective.
