James Slobodzien, 2014-05-01 Have you ever wondered about the Mysteries of God's wisdom or the secret to knowledge Jesus condemned the religious leaders of his day for taking away the Key to Knowledge Luke 11:52 This remarkable article anthology may have accidentally uncovered some of these ancient mysteries that are now considered TABOO to help you to read and really understand the Bible Less Could the 7 Pillars or dimensions of Wisdom Pro 9:1 possibly be related to the Key to Knowledge Hidden Bible Taboos began as one short essay that just for fun proposed a 7 Dimension Theory of Everything but several readers encouraged me to continue researching it and I soon discovered that it is the nature of the Universe for things to exist in 7's For example there are 7 types of Matter and 7 forms of Energy in the universe When we consider Time the 7 Day calendar week continues to be universal and immemorial in its observance among all nations and in all times Space our earthly physical space is divided up into 7 Continents 7 Oceans and 7 Seas After studying the multiple patterns of 7s in the universe's numerical DNA I turned my focus to ancient cultures and was shocked to find that in the ancient wisdom writings including Christianity the number 7 stands for spiritual perfection and divine completeness For example the Bible's book of Isaiah mentions the 7 Spirits of God the Father Isaiah 11:2 The Apostle John mentions the 7 Stars of God the Son Rev 1:20 and the Apostle Paul mentions the 7 Gifts of God the Holy Spirit Rom 12:6-8 In addition Zechariah mentions the 7 Eyes of the Lord which range throughout the earth Zech 4:10 This incredible phenomenon of multiples of 7 cannot be explained by chance or human design It is in these 7 Pillars of God's Wisdom that I have experienced a paradigm shift that has opened my eyes to see this divine tapestry to gain a better understanding of the Bible The 7 Dimension articles were written as independent brief essays over a period of 7 years After receiving comments from many readers over the years sometimes secretly a theme became apparent that seemed to be pointing to the fact that these divine truths of the 7 dimensional 7D biblical patterns of 7 were not being taught by the professional religious leaders of Catholic and Protestant Churches because they were forbidden by custom or tradition They are TABOO This compilation of independent articles indirectly provides a historical overview of the ancient world that leads up to the time of Jesus and the Early Church and reveals some Taboos related to sex drugs violence and racism The majority of the Taboos in this book however are not related to ancient mysterious pagan practices The most significant Taboos in this book are coming from professional church leaders of organized religions of Christianity today who forbid their church members from knowing and practicing what is written in the New Testament and commanded by Jesus and his Apostles Hidden Bible Taboos is a collection of these 7D articles that have accidentally uncovered and systematically integrated ancient religious mythologies archeological mysteries scientific and historical facts and End Time prophecies to reveal the Christian Sun god conspiracy It is not a formal theological treatise on spirituality and or religion as it is a work in progress that is very very far from perfect With the above disclaimer to having and or knowing the absolute truth I would like to present what I believe to be the 7 dimension 7D origins of ancient religious

knowledge and ageless wisdom that have been passed down to us by our ancestors So put on your 7D glasses Dedication This book is dedicated to Peter Waldo Founder of the Waldensians and the 50 million other Christians who were persecuted and slaughtered by the Organized Religion of Christianity Papacy in the middle ages and later Spiritual Religious Reading Material Warning The contents of this article anthology may shock and inspire you into developing your spiritual life Don t let yourself or your friends go without reading this life changing book

On the Offensive Karen Stollznow,2020 You people She was asking for it That s so gay Don t be a Jew My ex girlfriend is crazy You d be pretty if you lost weight You look good for your age These statements can be offensive to some people but it is complicated to understand exactly why It is often difficult to recognize the veiled racism sexism ableism lookism ageism and other isms that hide in our everyday language From an early age we learn and normalize many words and phrases that exclude groups of people and reinforce bias and social inequality Our language expresses attitudes and beliefs that can reveal internalized discrimination prejudice and intolerance Some words and phrases are considered to be offensive even if we re not trying to be

The African Diaspora Patrick Manning,2010-03-05 Patrick Manning follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe Asia and the Americas In joining these stories he shows how the waters of the Atlantic Ocean the Mediterranean Sea and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shaping across the globe Manning begins in 1400 and traces the connections that enabled Africans to mutually identify and hold together as a global community He tracks discourses on race

changes in economic circumstance the evolving character of family life and the growth of popular culture He underscores the profound influence that the African diaspora had on world history and demonstrates the inextricable link between black migration and the rise of modernity Inclusive and far reaching The African Diaspora proves that the advent of modernity cannot be fully understood without taking the African peoples and the African continent into account Grainger Journal Vol. 1 David Pear,Belinda Nemec,2011

world of politeness manners and aesthetics existed as separate and unequal domains unrelated in the spheres of social life But to the contrary Slavery and the Culture of Taste demonstrates that these two areas of modernity were surprisingly entwined Ranging across Britain the antebellum South and the West Indies and examining vast archives including portraits period paintings personal narratives and diaries Simon Gikandi illustrates how the violence and ugliness of enslavement actually shaped theories of taste notions of beauty and practices of high culture and how slavery's impurity informed and haunted the rarified customs of the time Gikandi focuses on the ways that the enslavement of Africans and the profits derived from this exploitation enabled the moment of taste in European mainly British life leading to a transformation of bourgeois ideas regarding freedom and selfhood He explores how these connections played out in the immense fortunes made in the West Indies sugar colonies supporting the lavish lives of English barons and altering the ideals that defined middle class subjects Discussing how the ownership of slaves turned the American planter class into a new aristocracy Gikandi engages with the slaves own response to the strange interplay of modern notions of freedom and the realities of bondage and he emphasizes the aesthetic and cultural processes developed by slaves to create spaces of freedom outside the regimen of enforced labor and truncated leisure Through a close look at the eighteenth century's many remarkable documents and artworks Slavery and the Culture of Taste sets forth the tensions and contradictions entangling a brutal practice and the distinctions of civility

AfroSymbiocity as a Psychology of Conflict and Conflict Resolution in Africa Ilongo Fritz Ngale, 2018-11-07 This book highlights original and traditional African strategies for conflict resolution based on four Basotho cultural concepts namely Botho or unity of being Pula or universalism Khotso or communalism and Nala or humanism In doing so it provides the missing psychological and African cultural pieces in the puzzle of conflict and conflict resolution This paradigm AfroSymbiocity is Sub Saharan African in scope but will have universal relevance The book transcends theory by demonstrating the application of traditional African peace and conflict resolution strategies through considering a historical personage King Moshoeshoe who effectively used authentic African conflict resolution strategies to forge harmony in Southern Africa in the late nineteenth and early twentieth centuries The book represents a major contribution to research and literature in peace and conflict studies and will be vital for students researchers and professionals in peace studies national and international decision makers and bodies which strive for world peace

Fearing the Black Body Sabrina Strings, 2019-05-07 Winner 2020 Body and Embodiment Best Publication Award given by the American Sociological Association Honorable Mention 2020 Sociology of Sex and Gender Distinguished Book Award given by the American Sociological Association How the female body has been racialized for over two hundred years There is an obesity epidemic in this country and poor black women are particularly stigmatized as diseased and a burden on the public health care system This is only the most recent incarnation of the fear of fat black women which Sabrina Strings shows took root more than two hundred years ago Strings weaves together an eye opening historical narrative ranging from the Renaissance to the current moment analyzing important works of art newspaper and magazine articles and scientific literature and medical journals where fat bodies were once praised showing that fat phobia as it relates to black women did not originate with medical findings but with the Enlightenment era belief that fatness was evidence of savagery and racial inferiority The author argues that the contemporary ideal of slenderness is at its very core racialized and racist Indeed it was not until the early twentieth century when racialized attitudes against fatness were already entrenched in the culture that the medical establishment began its crusade against obesity An important and original work Fearing the Black Body argues convincingly that fat phobia isn't about health at all but rather a means of using the body to validate race class and gender prejudice
