Suntanning in 20th Century America Kerry Segrave,2005-09-14 The suntan experienced a profound change in the last century Considered a mark of the lower class for hundreds of years tanning became a fad in the early 1920s and remains popular today The tan though was much more than a matter of fashion enjoying at first a boost from the medical establishment Opinions ranging from hard science to quackery lauded the suntan as something of a panacea Near the end of World War II however researchers increasingly warned against the hazards of overexposure to the sun and a large new industry developed sunscreen Americans current paradoxical obsession with the tan developed almost entirely from the conflicting rays of twentieth century thought This history examines the twentieth century suntan as a social and scientific phenomenon Beginning with the years 1900 1920 it debunks the myth that changing attitudes toward the tan sprang largely from the world of fashion Initial pro tanning medical hype emerging negative opinions of sunbathing near the middle of the century the development of sunscreens the debate over sunscreen efficacy and the sunless tan are all covered here
