Regional Economic Integration and Dispute Settlement in East Asia Anna G Tevini, 2018-06-28 The accession of the People's Republic of China to the World Trade Organization WTO in 2001 significantly transformed the global economy both de facto and de jure At the regional level China's WTO accession served as an important catalyst for the establishment of Regional Trade Agreements RTAs in East Asia This was a novel development for the region since East Asian States had previously followed a largely informal market driven approach to regional economic integration By contrast rules based economic integration involving East Asian States was traditionally limited to multilateral integration under the GATT WTO framework This book systematically analyses and explains the development nature and challenges of rules based regional economic integration in East Asia with particular attention to the region's first four RTAs While also addressing the socio economic historical and political factors influencing the development of RTAs in East Asia the book focuses on the legal institutions governing economic integration in the Association of Southeast Asian Nations ASEAN as well as under the ASEAN China Comprehensive Economic Co Operation Agreement ACFTA the Japan Singapore New Age Economic Partnership Agreement JSEPA and the Mainland China Hong Kong Closer Economic Partnership Arrangement CEPA The book provides a systematic comparative account of the scope depth and hard law versus soft law quality of rules based economic integration achieved under these four RTAs in the areas of trade in goods and services investment liberalisation and protection labour mobility and dispute settlement

Research Handbook in International Economic Law Andrew T.

Guzmán, A. O. Sykes, 2008-01-01 This major new work consists of carefully commissioned original and incisive contributions from leading scholars in the field of international economic law. Covering a full range of topics, the Handbook provides an accessible treatment of the law in each area as well as a thoughtful synthesis and discussion of related public policy issues from a broadly social science perspective. Normative Conditions to Make WTO Law More Responsive to the Needs of Developing Countries Philipp Scheuermann, 2010 The World Trade Organization International Trade Law Center, Arthur E. Appleton, Michael G. Plummer, 2007-12-31 The editors have succeeded in bringing together an excellent mix of leading scholars and practitioners. No book on the WTO has had this wide a scope before or covered the legal framework, economic and political issues current and would be countries and a outlook to the future like these three volumes do. 3000 pages, 80 chapters in 3 volumes cover a very interdisciplinary field that touches upon law, economics and politics. **Reclaiming Development in the World Trading System** Yong-Shik Lee, 2016-10-20 In this second edition, Lee provides extensive coverage of international trade law from an economic development perspective. **WTO - Trade Remedies** Peter-Tobias Stoll, Michael Koebele, 2008-06-25 In the decade since the establishment of the WTO, the great majority of disputes between member states resolved and decided through the dispute settlement system of the WTO arose in the field of trade remedies law, a fact which clearly shows the high demand by the trade community for the rule of law in this area. Responsive to such needs, the fourth volume encompasses the whole range of trade remedies regulation under the auspices of the WTO in the respective articles of the General Agreement on Tariffs and Trade (GATT) and the related multilateral agreements on trade in goods, i.e. Articles VI, XII, XIX GATT 1994, the Understanding on the Balance of Payments, the Agreement on Implementation of Article VI GATT 1994, Anti-Dumping Agreement, the Agreement on Subsidies and Countervailing Duties, and the Agreement on Safeguards. Leading practitioners and scholars have gathered to provide an invaluable insight and easy access to the law on trade remedies in an article-by-article commentary approach. As such, it will be an essential work not only for trade remedies practitioners but to persons interested in trade remedies, be they scholars, academics, international and domestic lawyers, political scientists and economists or NGO representatives. *Law and Development* Yong-Shik Lee, 2018-10-03 The book examines the theory and practice of law and development. It reviews the evolution of law and development studies and presents a general theory of law and development. The general theory sets the conceptual parameters of law and development and explains the mechanisms by which law impacts development. In the second part, the book applies the general theory to analyze the development cases of South Korea and South Africa from legal and institutional perspectives. The book also adopts for the first time the law and development approaches to analyze the economic issues of the United States. It discusses why it is critical to develop the Analytical Law and Development Model or ADM. The Legal and Economic Analysis of the WTO/FTA System Dukgeun Ahn, 2016-02-29 The Legal and Economic Analysis of the WTO/FTA System presents a collation of interdisciplinary studies covering a wide range of issues from WTO dispute settlement issues.

to trade remedy systems and FTA negotiations The author applies legal as well as economic rationales and methods to analyze core issues in the world trading system and in doing so sheds an interesting light on various trade issues The interdisciplinary analysis on WTO and FTA issues provides a unique opportunity to reconsider many conventional trade topics For instance the author shows that third country dumping rarely used in the GATT WTO system may have a new role with economic incentives in the context of FTAs Contents Dispute Settlement in the WTO System Understanding Non litigated Disputes in the WTO Dispute Settlement System Korea in the GATT WTO Dispute Settlement System Legal Battle for Economic Development Practices and Theoretical Foundations of the Trade Remedy System Alternative Approach to Causation Analysis in Trade Remedy Investigations Cost of Production Test Third Country Dumping Origin Evolution and Prospect Restructuring the WTO Safeguard Mechanism in The WTO Trade Remedy System Foe or Friend of GATT Article XXIV Diversity in Trade Remedy Rules Countervailing Duty against China Opening a Pandora s Box in the WTO System United States Anti Dumping Measures on Certain Shrimp and Diamond Sawblades from China Never Ending Zeroing in the WTO International Decisions United States Definitive Anti Dumping and Countervailing Duties on Certain Products from China Interrelation between Trade and Finance Linkages between International Trade and Financial Institutions IMF World Bank and WTO WTO Disciplines Under the IMF Program Congruence or Conflict Is the Chinese Exchange rate Regime WTO legal Book Review International Law in Financial Regulation and Monetary Affairs Legal and Economic Analysis of Free Trade Agreements Dispute Settlement Systems in Asian FTAs Issues and Problems Analysis of Anti dumping Use in Free Trade Agreements Legal Issues for Korea s Internal Trade in the WTO System Readership Researchers students and members of the public who are interested in international trade or economic law international economics and international political economy

Injury and Causation in Trade Remedy Law James J. Nedumpara, 2016-11-25 This book addresses injury and causation issues in the context of antidumping countervailing duty CVD and safeguard investigations that are covered under the WTO The book traces the origin and the negotiating history of injury and causation in trade remedy instruments and examines how this requirement evolved in the United States and more specifically in the GATT as part of the Kennedy Code the Tokyo Codes and later the Uruguay Round negotiating texts The book demonstrates that terms such as principal cause substantial cause and a cause in and of itself are not necessarily warranted in such instruments In the light of the experiences of key users of trade remedy instruments and the WTO Doha Round Rules negotiations the book argues that causation determination does not require mathematical precision Econometric or quantitative tools may be suggested but such tools need not undermine the policy laden nature of trade remedy instruments Accordingly the book suggests the use of weak necessity and strong sufficiency test as a potentially viable causative framework with regard to injury and causation in trade remedies

Developing Countries in the WTO Legal System Chantal Thomas, Joel P Trachtman, 2009-04-15 With contributions from some of the leading experts in international trade law and economics Joel P Trachtman and Chantal Thomas have compiled a comprehensive volume that looks at the positioning of developing countries within the WTO system These chapters address some of the most pressing issues facing these countries while reflecting on Robert E Hudec s groundbreaking book *Developing Countries in the GATT Legal System* In his landmark contribution Hudec argued against preferential and non reciprocal treatment for developing countries He did so on the basis of a combination of economic political and legal insights that persuasively demonstrated that non reciprocal treatment would not benefit developing countries It is a testament to Hudec s legacy that his analysis is still the object of scholarly discussion more than 20 years later The first part of this book evaluates the general situation of developing countries within the WTO The second part examines market access and competition law within these countries Lastly it discusses the special arrangements these countries have with international financial institutions the developing country s capacity to litigate and an analysis of the country s level of participation in WTO dispute settlements
