Safer Childbirth? Marjorie Tew, 2013-11-11 Since the first edition went to press in 1989 there have been many important developments concerning different aspects of maternity care To take account of these much needs to be added to this history Late 1989 saw the publication of the double volume set of studies *Effective Care in Pregnancy and Childbirth* in which all the then existing evidence on all the associated procedures was considered and evaluated by well informed and impartial authors representing many countries This informative collection has since been followed by a flow of single reports of new research findings about specific subjects within the field To incorporate the new material has involved in particular a considerable enlargement and rearrangement of the text and reference lists for Chapters 3 and 4 which deal with antenatal and intranatal care Then in 1990 the House of Commons Health Committee under its chairman Nicholas Winterton undertook a further enquiry into the maternity services in Britain A wide range of people concerned as providers or users of the service as well as researchers concerned to find out how well the service was meeting needs chose to submit testimonies written and oral These testimonies were all later published in six volumes which offered a most valuable depiction of the maternity service from many points of view

Safer Childbirth? Marjorie Tew, Jill Curtis, 1998 In the text's first edition Marjorie Tew showed through her painstaking statistical analysis of perinatal mortality rates for hospital and home that for some women hospital birth might actually be more dangerous than home birth These findings and further compelling evidence gathered by the House of Commons Health Committee in 1992 should have revolutionized the direction of maternity care This third edition considers the evidence on which the recommended changes in policy were made and the implications of implementing them
