## **Safety Net Programs And Poverty Reduction Lessons From Cross Country Experience:**

**Safety Net Programs and Poverty Reduction** K. Subbarao,1997 The need for social safety nets has become a key component of poverty reduction strategies Over the past three decades several developing countries have launched a variety of programs including cash transfers subsidies in kind public works and income generation programs However there is little guidance on appropriate program design and few studies have synthesized the lessons from widely differing country experiences This report fills that gap It reviews the conceptual issues in the choice of programs synthesizes cross country experience and analyzes how country and region specific constraints can explain why different approaches are successful in different countries

**Public Works as a Safety Net** Kalanidhi Subbarao,Carlo del Ninno,Colin Andrews,Claudia Rodríguez-Alas,2012-12-11 A review of the conceptual underpinnings and operational elements of public works programs around the world drawing from a rich evidence base and analyzing previously unassimilated data to fill a gap in knowledge related to public works programs now so popular

*Rural Development Strategies for Poverty Reduction and Environmental Protection in Sub-Saharan Africa* Kevin M. Cleaver,1997-01-01 Content Description Includes bibliographical references p

*The Global Social Policy Reader* Yeates, Nicola,Holden, Chris,2009-06-19 This text collects together a comprehensive range of key papers by international leaders in the field from a wide range of sources that explain the concepts actors and processes that constitute global social policy

**Social Policy in a Development Context** T. Mkandawire,2004-11-10 Drawing upon both conceptual and empirical evidence this volume argues the case for the centrality of social policy in development focusing particularly on the message that social policy needs to be closely intertwined with economic policy It is argued that social policy can provide the crucial link between economic development poverty eradication and equity This volume is a significant contribution to thinking about social policy in a development context

**Transforming the Rural Nonfarm Economy** Steven Haggblade,Peter B. R. Hazell,Thomas Reardon,2007-11-16 Contrary to conventional wisdom that equates rural economies with agriculture rural residents in developing countries often rely heavily on activities other than farming for their income Indeed nonfarm work accounts for between one third and one half of rural incomes in the developing world In recent years accelerating globalization increasing competition from large businesses expanding urban markets for rural goods and services and greater availability of information and communication technology have combined to expose rural nonfarm businesses to new opportunities as well as new risks By examining these rapid changes in the rural nonfarm economy international experts explore how the rural nonfarm economy can contribute to overall economic growth in developing countries and how the poor can participate in this rapidly evolving segment of the economy The authors review an array of recent studies of the rural nonfarm economy in order to summarize existing empirical evidence explore policy implications and identify future research priorities They examine the varied scale structure and composition of the rural nonfarm economy as well as its relationship with agricultural and urban enterprises And they address key questions about

the role of public intervention in the rural nonfarm economy and how the rural poor can participate in and navigate the rapid transition underway in rural areas The contributors offer new insights to specialists in rural development and to others interested in overall economic development     *A Guide to the World Bank* ,2003 The World Bank Group works in more than 100 developing economies and is one of the world s largest sources of development assistance In 2002 the institution provided US 19.5 billion in loans to its client countries This guide reviews the organisation s history objectives and operations and looks at the five institutions that make up the World Bank Group the International Bank for Reconstruction and Development IBRD the International Development Association IDA the International Finance Corporation IFC the Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID

*Employment Creation and Social Protection in the Middle East and North Africa* Economic Research Forum for the Arab Countries, Iran, and Turkey,2002 Describes and analyzes critical aspects of the labor market and social protection in the Arab world     *Local Dynamics in an Era of Globalization* Shahid Yusuf, Weiping Wu, Simon J. Evenett,2000 These papers discuss some of the major aspects of decentralization and urban change in the context of globalization     *Inclusive States* Anis A. Dani, Arjan de Haan,2008-04-29 The heterogeneity of social structures and cultural identities in many developing countries together with traditional hierarchies rivalries and deep seated biases has perpetuated inequities *Inclusive States* Social Policy and Structural Inequalities examines the role of the state and society in addressing structural inequalities and identifies a set of policy recommendations to redress them This book defines structural inequality as a condition arising from unequal status attributed to a category of people in relation to others a relationship perpetuated and reinforced by unequal relations in roles functions decision rights and opportunities Inclusive states are those that direct policies to address the needs of all that respect the rights of citizens to exercise voice and influence on which services are provided and how they are delivered and that have an interest in strengthening the social contract with their citizens A central focus of policy remains a concern for equity both to level the playing field to encourage social mobility and to ensure equity in the distributional effects of policy reforms and development interventions This book highlights two key challenges for social policy First policy design needs to take into account the weaknesses of basic state functions in many developing countries since these have important ramifications for social policy outcomes Second in most developing countries social structures marked by historically rooted structural inequalities pose significant challenges to the provision of services and require a long term commitment to address underlying questions and problems This book describes some of the challenges found in different contexts and some of the ways in which these challenges can be and are being addressed This book is part of a new series *New Frontiers in Social Policy* which examines issues and approaches to extend the boundaries of social policy beyond conventional social services toward policies and institutions that improve equality of opportunity and social justice in developing countries Other forthcoming titles in the series include *Assets Livelihoods and Social Policy* and *Institutional*

Pathways to Equity Addressing Inequality Traps      **Poverty and Policy in Latin America and the Caribbean** Quentin Wodon, Robert L. Ayres, 2000 Although the progress toward poverty reduction remains sluggish other dimensions of social welfare in the Latin American and Caribbean LAC region show signs of improvement Adult literacy and school enrollment rates life expectancy at birth and the amount of access to safe water are increasing Nutrition indicators are also improving However other factors demonstrate that many problems persist especially the inequality between rich and poor This report analyzes the evolution of poverty and inequality in the LAC region from 1986 to 1996 with projections to 1998 It reviews the policies which have been advocated or implemented to reduce poverty The report combines the results of new empirical work using household surveys from 12 countries short theoretical developments and a review of the literature on issues related to poverty inequality and social policy in LAC Some of the theoretical developments introduce new research techniques Chapters three to six follow the framework proposed in the forthcoming World Development Report 2000 2001 The framework identifies three essential elements for poverty reduction Those elements include opportunities for the poor and investments in the human capital of the poor security through social safety nets and empowerment      *Social Policy for Development* Anthony L Hall, James Midgley, 2004-03-31 Strong social policy is essential for sustainable growth This book is an extremely useful overview of social policy issue for policy makers and anyone who wants to understand the true roots of successful sustainable development Ian Johnson Vice President for Sustainable Development The World Bank Throughout the world issues of social development have now taken centre stage There is no more comprehensive and readable guide to the choices and conflicts of this global drama This book is essential reading for all students and practitioners of social development and for every World Bank economist David Piachaud Professor of Social Policy London School of Economics This much needed textbook fulfils a major gap in providing a complete up to date guide and introduction to the increasingly important role of social policy in the context of development processes and practice Across a number of key sectors and areas of social policy concern the authors accessibly introduce and explain the main conceptual debates the most recent policy discussions and provide applied examples to illustrate the latest developments in the social policy and planning field Central topics covered include poverty rural development urban development education health social work social welfare international development and cooperation Social Policy for Development is an essential text for all students and practitioners alike seeking a deeper understanding of the issues of poverty social exclusion and deprivation across social policy and development studies internationally      **India, Some Aspects of Economic and Social Development** S. Mahendra Dev, 2008 Lectures delivered during 2005 06 at Hyderabad by eminent scholars some were revised      *Grenada Investment and Business Guide Volume 1 Strategic and Practical Information* IBP USA, 2013-08 Grenada Investment and Business Guide Strategic and Practical Information      **WTO and Direct Taxation** Michael Lang, Judith Herdin, Ines Hofbauer, 2005-01-01 WTO Law and Direct Taxation are linked in numerous ways The WTO Agreements thereof especially

the GATT and GATS Agreements contain several explicit provisions on the subject of direct taxes or even on its delimitation from Tax Treaty Law To some extent the scope of application of WTO Law has been broadened by case law to comprise also direct taxes This entails overlappings particularly with regard to the law of subsidies prohibitions of discrimination and most favoured nation obligations This book highlights increasingly relevant interdependencies between WTO Law and Direct Taxation from the viewpoint of 21 States Special emphasis is placed on the conformity of national taxes on profits with WTO Law as well as on specifics of interpretation in several Member States 21 National Reports from nearly all EU countries as well as Colombia Israel New Zealand Norway and the USA dealt with this topic and were compiled and published in this volume Additionally a General Report prepared by Servatius van Thiel summarises the results of the National Reports Moreover experts in this field joining the Conference among them Reuven Avi Yonah Michael Lennard and Raymond Lujá have volunteered contributions dealing with specific problems of WTO and Direct Taxation

**The Global Rise of Social Cash Transfers** Lutz Leisering, 2019 This volume analyses the phenomenon of social cash transfers in the global South providing a definitive and comprehensive overview of current practice

**International Poverty Law** Lucy Williams, 2013-07-04 This book seeks to advance the emerging field of international poverty law While law and development discourse has dealt with international poverty advocates of poverty reduction customarily operate within a nation state context The contributors to this volume while largely although not exclusively relying on human rights discourse and United Nations International Labour Organization and World Trade Organization initiatives as their primary legal sources begin to position international poverty law as a legitimate field for transnational multidisciplinary legal research and dialogue While critiquing both legal theory and current policy they nevertheless open up a constructive prospect of specific arenas in which the development of international poverty law can contribute to addressing poverty reduction The opening chapters of this volume provide a framework within which to position the future theoretical development of international poverty law The rest of the book explores specific human rights initiatives that address particular aspects of poverty These include an overview of human rights conventions and how they can be connected to international poverty law measures required to counter the tendency of intellectual property law as applied to biological products and processes to undermine food security the right to food as framed in United Nations development documents the potential role that voluntary codes of conduct currently being adopted by some transnational corporations might play in poverty reduction and the startlingly important development in the new South Africa of an alternative vision of constitutional law that takes account of international human rights instruments in moving towards rendering social and economic rights justifiable

**Poverty Reduction in the 1990s** Alison Evans, 2000-01-01 The World Development Report 1990 Poverty provided the foundation for the World Bank strategy to help achieve global poverty reduction This report is a contribution to the strategy review process It examines the implementation of the 1990 strategy maps changes against assessment of Bank performance at both the country and the project level and

assesses the relevance of key elements of the 1990 strategy in light of new data and shifts in the development assistance environment The report concludes that the 1990 strategy remains relevant but needs to be combined with a more comprehensive approach Lessons from experience confirm the importance of a holistic approach to reach the poor more effectively This includes a focus on local level institutions and building on existing institutional frameworks wherever possible and on working across sectors for maximum impact The 1990 strategy and the operational guidelines based on it have failed to generate a clear emphasis on measuring and monitoring results A critical test of the Bank s evolving poverty strategy will be the design of a credible framework for measuring the results of the Bank s country assistance and helping to build local capacity for monitoring the impact of poverty reduction programmes The report is in English with the foreword and the executive summary given in English Spanish and French

**Appraising Workfare Programs** Martin Ravallion,1998 This paper offers some simple analytic tools for a rapid appraisal of workfare programs It discusses requirements for successful programs and explains the conditions and information requirements that should be taken into account when designing and implementing such programs Programs are studied in the abstract and from stylized versions of a range of actual programs
