Safety In Numbers Safer Sex And Gay Men:

Safety in Numbers Edward King, 1994 Gay men remain the group primarily affected by the AIDS epidemic in most industrialized countries Although governments and AIDS organizations increasingly stress the dangers of a heterosexual HIV epidemic it is gay men who are still bearing the brunt of the crisis In the 1980s gay men pioneered safer sex campaigns long before governments responded Rates of HIV transmission were drastically reduced through the most successful health related behaviour changes in history Today however the challenge for health educators is to understand the early successes and to translate them into new and equally effective strategies This unprecedented book provides a comprehensive overview of safer sex education for gay men It offers a critical analysis of the professionalization and de gaying of AIDS education in recent years and demonstrates conclusively how those at greatest risk from HIV have become the most neglected By looking back over the successes of the past it provides an accessible essential guide to meeting current and future needs Book Jacket

Beyond Sexuality Tim Dean, 2000-09 Beyond Sexuality points contemporary sexual politics in a radically new direction Combining a psychoanalytic emphasis on the unconscious with a deep respect for the historical variability of sexual identities this original work of queer theory makes the case for viewing erotic desire as fundamentally impersonal Tim Dean develops a reading of Jacques Lacan that rather than straightening out this notoriously difficult French psychoanalyst brings out the queer tensions and productive incoherencies in his account of desire Dean shows how the Lacanian unconscious deheterosexualizes desire and along the way he reveals how psychoanalytic thinkers as well as queer theorists have failed to exploit the full potential of this conception of desire The book elaborates this by investigating social fantasies about homosexuality and AIDS including gay men's own fantasies about sex and promiscuity in an attempt to illuminate the challenges facing safe sex education Taking on many shibboleths in contemporary psychoanalysis and queer theory and taking no prisoners Beyond Sexuality offers an antidote to hagiographical strains in recent work on psychoanalysis Foucault and sexuality

Sexual Identities, Queer Politics Mark Blasius, 2021-02-09. In this collection political and public policy analysts explore the social concerns of lesbians, gays, bisexuals and the transgendered, what has come to be known as LGBT or queer politics. Compared to the humanities and to other social sciences, political science has been slow to address this phenomenon. Issues ranging from housing to adoption to laws on sodomy, however, have increasingly raised important political questions about the rights and status of sexual minorities, particularly within liberal democracies such as the United States and also on an international level. This anthology offers the first comprehensive overview of the study of LGBT politics in political science across the discipline's main subfields and methodologies and it spotlights LGBT movements in several regions around the world. Focusing on the politics of sexuality with regard to the politics of knowledge, the book presents a discussion of power that will interest all political scientists and others concerned with minority rights and gender as well as with transformation in the relations between public and private. The articles cover such topics as LGBT power in urban politics, the impact of public opinion on LGBT life, means of effecting legal and political change in the United States and international differences in LGBT political activism. The authors represent a new cadre of political scientists who are creating an interdisciplinary domain of research that is informed by and in turn generates political activism. They are Dennis Altman, M. V. Lee Badgett, Robert W. Bailey, Mark Blasius, Cathy J. Cohen, Timothy E. Cook, Paisley Currah, Juanita D. Az Cotto, Jan Willem Duyvendak, Leonard Harris, Bevin Hartnett, Rosalind Pollack Petchesky, David Rayside, Rebecca Mae Salokar and Alan S. Yang **Men and masculinities in modern Britain** Matt Houlbrook, Katie Jones, Ben Mechen, 2024-01-16. *Men and masculinities* provides an engaging, accessible and provocative introduction to histories of masculinity for all readers interested in contemporary gender politics. The book offers a critical overview of ongoing historiographical debates and the historical making of men's lives and identities and ideas of masculinity between the 1890s and the present day. In setting out a new agenda for the field

it makes an ambitious argument for the importance of writing histories which are present centred and politically engaged This means that the book engages head on with ferocious debates about men s social position and the status of masculinity in contemporary public life In establishing a critical genealogy for the proliferation of this crisis talk it sets out new ways of understanding how men s lives and ideas of masculinity have changed over time while patriarchy and male power have persisted

Sex, Society, and the Making of Pornography Jeffrey Escoffier,2021-02-12 Hardcore pornographic films combine fantasy and real sex to create a unique genre of entertainment Pornographic films are also historical documents that give us access to the sexual behavior and eroticism of different historical periods This book shows how the making of pornographic films is a social process that draws on the fantasies sexual scripts and sexual identities of performers writers directors and editors to produce sexually exciting videos and movies Yet hardcore pornographic films have also created a body of knowledge that constitutes in this digital age an enormous archive of sexual fantasies that serve as both a form of sex education and self help guides Sex Society and the Making of Pornography focuses on sex and what can be learned about it from pornographic representations

Modern Criticism and Theory Nigel Wood,David Lodge,2014-06-11 This third edition of Modern Criticism and Theory represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection s aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today
