Kentucky Moonshine David W. Maurer,2021-10-12 When the first American tax on distilled spirits was established in 1791 violence broke out in Pennsylvania The resulting Whiskey Rebellion sent hundreds of families down the Ohio River by flatboat stills on board to settle anew in the fertile bottomlands of Kentucky Here they used cold limestone spring water to make bourbon and found that corn produced even better yields of whiskey than rye Thus the licit and illicit branches of the distilling industry grew up side by side in the state This is the story of the illicit side the moonshiners craft and craftsmanship as practiced in Kentucky A glossary of moonshiner jargon sheds light on such colorful terms as puker slop and weed monkey With a new foreword by author Wes Berry David M Maurer s classic history of this subject is tongue in cheek but nevertheless provides a realistic

look at the Kentucky moonshiner and the moonshining industry Slavery in the American Mountain South Wilma A. Dunaway, 2003 Wilma Dunaway breaks new ground by focusing on slave experiences on small plantations in the Upper South. She argues that a region was not buffered from the political economic and social impacts of enslavement simply because it was characterized by low black population density and small slaveholdings. By drawing on a massive statistical data base derived from antebellum census manuscripts and county tax records of 215 counties in nine states on a vast array of slaveholder manuscripts and on regional slave narratives she pinpoints several indicators that distinguished Mountain South enslavement from the Lower South.
