Sailing on the Silver Screen Lawrence H. Suid, 1996 However when the Tailhook scandal erupted and the conduct of some aviators was attributed to the flyboy image projected in the movie Top Gun became a liability American Historical Film J.E. Smyth, 2012-01-17 How do Hollywood filmmakers construct and interpret American history Is film's visual historical language inherently different from the traditions of written history. This definitive collection of essays by leading scholars probes the theoretical and historical contexts of films made about the American past from the silent era to the present Exploring issues deeply connected with historical filmmaking from historiography to censorship to race gender and sexuality the book discusses a wide range of films and genres including classics such as The Virginian Gone with the Wind and Citizen Kane This collection is essential reading for anyone interested in studying or researching American history and film Includes essays by Susan Courtney David Culbert Nicholas J Cull Vera Dika David Eldridge Vittorio H sle Marcia Landy Mark W Roche Robert Rosenstone Ian Scott Robert Sklar J E Smyth and Warren I Susman Hollywood and the Military Bureaucracy Bob Herzberg, 2021-04-30 Through a century of movies the U S military held sway over war and service oriented films Influenced by the armed forces and their public relations units Hollywood presented moviegoers with images of a faultless American fighting machine led by heroic commanders This book examines this cooperation with detailed narratives of military blunders and unfit officers that were whitewashed to be presented in a more favorable light Drawing on production files correspondence between bureaucrats and filmmakers and contemporary critical reviews the author reveals the behind the scenes political maneuvers that led to the rewriting of history on screen Hollywood's South Seas and the Pacific War S. Brawley, C. Dixon, 2012-08-06 This book explores the expectations experiences and reactions of Allied servicemen and women who served in the wartime Pacific and viewed the South Pacific through the lens of Hollywood s South Seas Based on extensive archival research it explores the intersections between military experiences and cultural history The naval war film Jonathan Rayner, 2013-07-19 This book undertakes a unique coherent and comprehensive consideration of the depiction of naval warfare in the cinema The films under discussion encompass all areas of naval operations in war and highlight varying institutional and aesthetic responses to navies and the sea in popular culture The examination of these films centres on their similarities to and differences from the conventions of the war genre and seeks to determine whether the distinctive characteristics of naval film narratives justify their categorisation as a separate genre or sub genre in popular cinema The explicit factual bases and drama documentary style of many key naval films such as In Which We Serve They Were Expendable and Das Boot also requires the consideration of these films as texts for popular historical transmission Their frequent reinforcement of establishment views of the past which derives from their conservative ideological position towards national and naval culture makes these films key texts for the consideration of national cinemas as purveyors of contemporary history as popularly conceived by filmmakers and received by audiences **Naval Aviation**

The chapters provide a valuable and concise survey of the main themes in the study of military history from 1500 to the present day as Jeremy Black reveals the main trends in the practice and approach to military history and proposes a new manifesto for the subject to move forward This must read study demonstrates the limitations of current approaches including common generalizations omissions and over simplications Engaging theoretical discussions with reference to specific conflicts suggest how these limitations can be remedied and adapted whilst incorporating contributions from other disciplines Rethinking Military History is essential reading for all those with an interest in military history and all who wish to take part in moving the discipline forward American Militarism and Anti-Militarism in Popular Media, 1945-1970 Lisa M. Mundey, 2012-01-27 Scholars have characterized the early decades of the Cold War as an era of rising militarism in the United States but most Americans continued to identify themselves as fundamentally anti militaristic To them militaristic defined the authoritarian regimes of Germany and Japan that the nation had defeated in World War II aggressive power hungry countries in which the military possessed power outside civilian authority Much of the popular culture in the decades following World War II reflected and reinforced a more pacifist perception of America This study explores military images in television film and comic books from 1945 to 1970 to understand how popular culture made it possible for a public to

embrace more militaristic national security policies yet continue to perceive themselves as deeply anti militaristic

Interpreting Naval History at Museums and Historic Sites Benjamin J. Hruska, 2016-08-09 Interpreting Naval History at Museums and Historic Sites demonstrates the broad appeal of naval themed commemoration centering on military aspects from both times of war and peace Transcending place and time naval history is shaped into public forums for modern day consumption These occurrences are not limited to just recent history as can be seen in the celebration of man s long history of transforming bodies of water from barriers into opportunities In addition with the modern day nation state naval history is not just limited to areas near large bodies of water as seen with landlocked states in the United States sharing in a proud naval tradition Examples of this included in the book are USS Arizona BB 39 and USS Missouri BB 63 Naval history is just one avenue with sites marking the history of immigration engineering technology and architecture Naval history also extends into lighthouses and port facility construction which are the background of a host of U S Generals in the U S Army with the Army Corps of Engineers which includes the Robert E Lee Using an international approach the book illustrates the intersection of the historical understanding of one s place and naval traditions Locating the boundaries one finds both the BRITISH WAR FILMS, 1939 - 45 S.
