Sailing and Social Class Alan O'Connor, 2024-04-23 This book explores the sociology of sailing and yachting Drawing on original research and employing a theoretical framework based on the work of Pierre Bourdieu the book argues that sailing is still an upper middle class activity that has much to tell us about the wider sociology of leisure and sport The book examines the historical foundations of blue water sailing as established by naval and colonial shipping to trace the roots of contemporary sailing and yachting culture It also examines archives of sailing narratives and cruising guides as well as the children's books of Arthur Ransome arguing that this archival material offers a social rather than a psychological interpretation of the bodily investment in sailing The book uses Bourdieu's concepts of *illusio* an investment of time emotion and body into a worthwhile activity and *habitus* or *lifeworld* alongside contemporary data sets to examine the yacht club as a social institution including why many boats never go out on the water the relationship between yacht clubs and the state and social issues as manifested in yacht clubs such as sexism racism and homophobia Offering a vigorous sociological critique of yachting and sailing this book is fascinating reading for anybody with an interest in the sociology of leisure and sport subcultures social theory or social issues in wider society

Freedom Ship Marcus Rediker, 2025-05-13 A definitive sweeping account of the Underground Railroad's long overlooked maritime origins from a pre-eminent scholar of Atlantic history and the award-winning author of *The Slave Ship* As many as 100,000 enslaved people fled successfully from the horrors of bondage in the antebellum South finding safe harbor along a network of passageways across North America now known as the Underground Railroad Yet imagery of fugitives ushered clandestinely from safe house to safe house fails to capture the full breadth of these harrowing journeys many escapes took place not by land but by sea Deeply researched and grippingly told *Freedom Ship* offers a groundbreaking new look into the secret world of stowaways and the vessels that carried them to freedom across the North and into Canada Sprawling through the intricate riverways of the Carolinas to the banks of the Chesapeake Bay to Boston's harbors these tales illuminate the little-known stories of freedom seekers who turned their sights to the sea among them the legendary abolitionist Frederick Douglass and Harriet Tubman one of the Underground Railroad's most famous architects Marcus Rediker one of the leading scholars of maritime history puts his command of archival research on full display in this luminous portrait of the Atlantic waterfront as a place of conspiracy mutiny and liberation *Freedom Ship* is essential reading for anyone looking to understand the complete story of one of North America's most significant historical moments
