Animals, 1888 *Facing the Wild* Chilla Bulbeck, 2012-06-25 What do wild animals mean to humans Will they survive both rampant habitat loss and extinction caused by human encroachment and as ecotourists our enthusiasm for them With ecotourism now the fastest growing segment of tourism and encounters with wild animals be it swimming with dolphins going on safari or bird watching ever more popular these are critical questions Yet until now little has been known about why people crave encounters with wild animals and the meaning for the ecotourism industry conservation efforts and society at large Facing the Wild is the first serious empirical examination of why people seek out animals in their natural environment what the desire for this experience tells us about the meanings of animals nature authenticity and wilderness in contemporary industrialized societies and whether visitors change their environmental perspectives and behaviour as the custodians of wildlife parks would like them to The book explores the contradictions and ambivalence that so many people experience in the presence of wild nature in loving it we may diminish it and in the act of wanting to see it we may destroy it Ultimately the book makes a case for respectful stewardship of a hybrid nature and provides insight for both practitioners and ecotourists alike

Terry Martin, 2024-09-26 Christians of all traditions have often puzzled with the question Do dogs go to heaven Drawing on Catholic teaching and on his long pastoral experience as a parish priest Terry Martin expands that concept to consider wider issues around all animals domesticated and free living and why they are here Within a context of Christian faith he seeks to understand the place of animals in God's complex creation and the relationship that human beings have for good or ill with those animals More than that he looks at the big questions which so many ask about who under God animals are and what meaning if any animal lives have from a Catholic Christian perspective *A Snarl Theology* John Francis Pearing, John

Sorensen,2023-01-20 A Snarl Theology calls God a merciful creator a big picture divinity bigger than anything imaginable Scripture confirms that in the restoration of the world and all its environs there will be a settlement between God and his creatures A covenant to set animals and us back as we were meant to be I will make a covenant for them on that day with the beasts of the field with the birds of the air and with the things that crawl on the ground Hosea 2 20 Redemption is the divine act of follow through regarding covenant washing away our faults defects and foibles and taking us into the arms of the divine Are animals rewarded with redemption like us with a full restoration To imagine that God will not reward these martyred creatures who play a significant role in human redemption weakens the concept and promise of paradise Animals are sentient beyond our understanding residents in a universe where God communicates with everyone This animal kingdom theology implies that animals too hear God s voice A Snarl Theology s hope for animals to be our redemptive allies shouldn t cancel doctrine upset dogma or countermand Christianity It should increase our love of God **Making Magic** Briana

eloquent denunciation of the failures of Canada's government and society to protect wildlife from human exploitation Max Foran's *The Subjugation of Canadian Wildlife* argues that a root cause of wildlife depletions and habitat loss is the culturally ingrained beliefs that underpin management practices and policies Tracing the evolution of the highly contestable assumptions that define the human wildlife relationship Foran stresses the price wild animals pay for human self interest Using several examples of government oversight at the federal provincial and territorial levels from the Species at Risk Act to the Biodiversity Strategy Protected Areas Network and provincial management plans this volume shows that wildlife policies are as much or more about human needs priorities and profit as they are about preservation Challenging established concepts including ecological integrity adaptive management sport hunting as conservation and the flawed belief that wildlife is a renewable resource the author compels us to recognize animals as sentient individuals and as integral components of complex ecological systems A passionate critique of contemporary wildlife policy *The Subjugation of Canadian Wildlife* calls for belief change as the best hope for an ecologically healthy wildlife rich Canada [Indigenous Perceptions of the End of the World](#) Rosalyn Bold, 2019-06-29 This edited volume constructs a cosmopolitics of climate change consulting small scale sustainable communities on whether the world is ending and why and how we can take action to prevent it By comparing scientific and indigenous accounts of the same phenomenon contributors seek to broaden Western understandings of what climate change constitutes In this context existing cosmologies are challenged opening spaces for hegemonic narratives to enter into conversation with the non modern and construct worlds otherwise situations of world change and renewal through climate change Bold brings together perspectives from Central America Mexico the Amazon and the Andes to converse with scientific narratives of climate change and create cracks that bring new worlds into being for readers [Live of the Irish Saints, with Special Festivals, and the Commemorations of Holy Persons](#) O'Hanlon John Canon (Irish Catholic priest), 1873

Animal Sacrifice and Religious Freedom David M. O'Brien, 2004 The Santeria religion of Cuba the Way of the Saints mixes West African Yoruba culture with Catholicism Similar to Haitian voodoo Santeria has long practiced animal sacrifice in certain rites But when Cuban immigrants brought those rituals to Florida local authorities were suddenly confronted with a controversial situation that pitted the regulation of public health and morality against religious freedom After Ernesto Pichardo established a Santeria church in Hialeah in the 1980s the city of Hialeah responded by passing ordinances banning ritual animal sacrifice Although on the surface those ordinances seemed general in intent they were clearly aimed at Pichardo's church When Pichardo subsequently sued the city a federal court ruled in the latter's favor in effect privileging the regulation of public health and morality over the church's free exercise of its religion The U S Supreme Court heard Pichardo's appeal in 1993 and unanimously decided that the city had overstepped its bounds in targeting this particular religious group however the court was sharply divided regarding the basis of its decision Three concurring opinions registered distinctly different views of the First Amendment the limits of government regulation and the religious freedom of

minorities In the end the nine justices collectively concluded that freedom of religious belief was absolute while the freedom to practice the tenets of any faith were subject to non discriminatory local regulations David O'Brien one of America's foremost scholars of the Court now illuminates this controversy and its significance for law government and religion in America His lively account takes us behind the scenes at every stage of the litigation to reveal a riveting case with more twists and turns than a classic whodunit Ranging with equal ease from primitive magic to municipal politics and to the most arcane points of constitutional law O'Brien weaves a compelling and instructive tale with a fascinating array of politicians lawyers jurists civil libertarians and animal rights advocates Offering sharp insights into the key issues and personalities he highlights cultural clashes large and small while maintaining a balance for both the needs of government and the religious rights of individuals The Santeria case reaffirmed that our laws must be generally applicable and neutral and may not discriminate against particular religions Tracing the path to that conclusion *Animal Sacrifice and Religious Freedom* provides a provocative and learned account of one of the most unusual and contentious religious freedom cases in American history
