Neilson, Nathan N. Waite, 2017-02-01 The Mormons had just arrived in Utah after their 1 300 mile exodus across the Great Plains and over the Rocky Mountains Food was scarce the climate shocking in its extremes and local Indian bands uneasy Despite the challenges Brigham Young and his counselors in the First Presidency sent church members out to establish footholds throughout the Great Basin But the church leaders felt they had a commission to do more than simply establish Zion in the wilderness they had to invite the nations to come up to the mountain of the Lord's house In these critical early years when survival in Utah was precarious missionaries were sent to every inhabited continent The 14 general epistles sent out from the First Presidency from 1849 to 1856 provide invaluable perspectives on the events of Mormon history as they unfolded during this complex transitional time Woven into each epistle are missionary calls and reports from the field giving the Mormons a glimpse of the wider world far beyond their isolated home At times the epistles are a surprising mixture of soaring doctrinal expositions and mundane lists of items needed in Salt Lake City such as shoe leather and nails *Settling the Valley Proclaiming the Gospel* collects the 14 general epistles with introductions that provide historical religious and environmental contexts for the letters including how they fit into the Christian epistolary tradition by which they were inspired *Catalogue of the American Library of the Late Mr. George Brinley of Hartford, Conn* George Brinley, 1886 *Quarterly Bulletin*, 1924 **Annals of Wyoming**, *University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects* University of California (System). communities prior to the eleventh century showing their development and sophistication All communities have a strong sense of identity with the area in which they live which for England in the early medieval period manifested itself in a series of territorial entities ranging from large kingdoms down to small districts known as pagi or regiones This book investigates these small early folk territories and the way that they evolved into the administrative units recorded in Domesday across an entire kingdom that of the East Saxons broadly speaking what is now Essex Middlesex most of Hertfordshire and south Suffolk A wide range of evidence is drawn upon including archaeology written documents place names and the early cartographic sources The book looks in particular at the relationship between Saxon immigrants and the native British population and argues that initially these ethnic groups occupied different parts of the landscape until a dynasty which assumed an Anglo Saxon identity achieved political ascendancy its members included the so called Prittlewell Prince buried with spectacular grave good in Prittlewell near Southend on Sea in southern Essex Other significant places discussed include London the seat of the first East Saxon bishopric the possible royal villas at Wicken Bonhunt near Saffron Walden and Maldon and St Peter s Chapel at Bradwell on Sea one of the most important surviving churches from the early Christian period
