Symmetry** Tohru Ogawa, Koryo Miura, Takashi Masunari, Denes Nagy, 2012-12-06 In Japanese culture the concept of katachi has special significance connoting relationships and connectedness Although katachi cannot be translated precisely it corresponds most closely to form shape pattern or Gestalt The contemporary study of katachi is interdisciplinary and encompasses virtually all scientific and aesthetic endeavors Katachi research seeks to bridge the gap between cultures whether the two cultures of C P Snow or the contrasting cultures of East and West To help achieve this aim and to foster international cooperation the interdisciplinary symposium titled Katachi U Symmetry was convened in Tsukuba Japan November 21 25 1994 With many participants from differing backgrounds and cultural perspectives the symposium was the culmination of 15 years of work in the field Like minded researchers and philosophers came together from two movements in interdisciplinary studies of katachi and symmetry that arose in the 1980s one in Japan the other in Hungary The proceedings of the symposium will stimulate and provoke the interest of scientists and mathematicians engineers and architects philosophers and semioticians indeed all those with a lively sense of curiosity and a wide ranging intellect **Beyond Utopia** Agnes Nyilas, 2018-05-25 Megastructure proposals by the Japanese Metabolism group are commonly identified with the concept of utopia Beyond this partial understanding Agnes Nyilas suggests that rather than being merely utopian the Megastructure of Metabolism represents a uniquely amalgam genre the myth camouflaged as utopia Although its Megastructure seemingly describes a desirable future condition as utopia does it also comprises certain cultural images rooted in the collective unconscious of Japanese people in accordance with the general interpretation of myth The primary narrative of Beyond Utopia thus follows the gradual unfolding of the myth like characteristics of its Megastructure Myth is dealt here as an interdisciplinary subject in line with contemporary myth theories After expounding the mechanism underlying the growing demand for a new myth in architecture the origin of the myth Part I discovers the formal characteristics of the Megastructure of Metabolism to give a hint of the real intention behind it Based on this Part II is a reexamination of their design methods which aims to clarify the function of the

myth and to suggest the meaning behind it Finally Part III deals with the subject matter of the myth by disclosing the meaning unfolding in the story and suggests a new reading of Metabolism urban theory as an attempt to reconsider the traditional Japanese space concept
