Salamis of Cyprus Sabine Rogge,Christina Ioannou,Theodoros Mavrojiannis,2019 In May 2015 an international conference organised by the University of Cyprus and the Cypriot Department of Antiquities was held in Nicosia a conference which could well be called the largest ever symposium on ancient Salamis During the three day event some 60 scholars from many countries presented their current research on this important and spectacular archaeological site on the east coast of the island of Cyprus Two generations of scholars met in Nicosia during the conference an older one whose relationship with ancient Salamis can be characterized as very direct since many representatives of that generation had actively participated in the extremely productive excavations at that spot until these activities came to an abrupt end in the summer of 1974 due to the Turkish invasion and a younger generation which is of course lacking this very direct contact The conference successfully connected the older with the younger generation and thus contributed to maintaining and renewing the interest in ancient Salamis This richly illustrated book compiles most of the lectures presented during the conference It might be regarded as a tribute to Salamis an outstanding ancient city which existed for more than one and a half millennia eventually under the name of Constantia **Book Prices: Used and Rare, 1994** Edward N. Zempel,1994 **Salamina** Rockwell

Miles,2015-07-24 This is an exciting time to study in Athens The rescue excavations of recent years conducted during construction of the Metro system and in preparation for the 2004 Olympics Games combined with major restoration projects and a new enthusiasm for fresh examination of old material using new techniques and applications brings new perspectives and answers on many aspects of the ancient city of Athens and life politics and religion in Attica The 15 papers presented here contribute new findings that result from intensive firsthand examinations of the archaeological and epigraphical evidence They illustrate how much may be gained by reexamining material from older excavations and from the methodological shift from documenting information to closer analysis and larger historical reflection They offer a variety of perspectives on a range of issues the ambiance of the ancient city for passersby filled with roadside shrines techniques of architectural construction and sculpting religious expression in Athens

including cults of Asklepios and Serapis the precise procedures for Greek sacrifice how the borders of Attica were defined over time and details of its road system In presenting this volume the contributors are continuing in a long tradition of autopsy in the sense of personal observation in Athens that began even in the Hellenistic period and has continued through the writings of centuries of travelers and academics to the present day
