**The Great War** Hunt Tooley, 2015-11-29 We have often heard about the brutal world of the trenches the willingness of brave young soldiers and the apparent indifference of the generals but reevaluations of the Great War in previous decades have shown us much more complexity and in many cases some surprising reconstructions of very standard

narratives of the war The traditional isolation of the battle front from the home front which historians have tended to observe has given us an incomplete understanding of both fronts In this study of World War I Hunt Tooley crosses the boundaries of national histories to examine the various connections between the 400 mile long Western Front and the home fronts of the United Kingdom France Germany Canada Australia and the United States Tooley draws on recent research and the wealth of primary source material available to provide a broad synthesis of a complex event and to create a more holistic view of the war as men stayed in touch with those at home as governments responded to events on the battlefield and as writers poets and artists brought the cultural impulses of Europe to the deadly world of the Western Front In his clearly written wide ranging study Tooley argues that the seeds of much of the 20th century may have been planted well before the First World War but as many social critics politicians soldiers women s movement leaders and others predicted the cultivation of these seeds in war would have a powerful and formative effect on the social political and cultural processes which shaped the 20th century

*Cultural Heritage of the Great War in Britain* Dr Ross J Wilson, 2013-10-28 As the hundredth anniversary approaches it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness but also to reflect upon its rich and substantial cultural legacy This book examines the heritage of the Great War in contemporary Britain It addresses how the war maintains a place and value within British society through the usage of phrases references metaphors and imagery within popular media heritage and political discourse Whilst the representation of the war within historiography literature art television and film has been examined by scholars seeking to understand the origins of the popular memory of the conflict these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity place and politics By examining the history usage and meanings of references to the Great War within local and national newspapers historical societies political publications and manifestos the heritage sector popular expressions blogs and internet chat rooms an analysis of the discourses which structure the remembrance of the war can be created The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression Whilst utilising the substantial field of heritage studies this book puts forward a new methodology for assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society

*Landscapes of the Western Front* Ross Wilson, 2013-06-17 This book examines the British soldiers on the Western Front and how they responded to the war landscape they encountered behind the lines and at the front Using a multidisciplinary perspective this study investigates the relationship between soldiers and the spaces and materials of the warzone analyzing how soldiers constructed a sense of place in the hostile unpredictable environment Drawing upon recent developments within First World War Studies and the anthropological examination of the fields of conflict an ethnohistorical perspective of the soldiers is built which details the

various ways soldiers responded to the physical and material world of the Western Front This study is also grounded in the wider debates on how the First World War is remembered within Britain and offers an alternative perspective on the individuals who fought in the world's first global conflagration nearly a century ago **Pillars of Fire** Ian

Passingham, 2012-02-29 Gentleman we may not make history tomorrow but we shall certainly change the geography So said General Plumer the day before 600 tons of explosives were detonated under the German position on Messines Ridge The explosion was heard by Lloyd George in Downing Street and as far away as Dublin Until 1918 Messines was the only clear cut Allied victory on the Western Front coming at a time when Britain and her allies needed it most boosting Allied morale and shattering that of the Germans Precisely orchestrated Messines was the first true all arms modern battle which brought together artillery engineers infantry tanks aircraft and administrative units from a commonwealth of nations to defeat the common enemy So why is its name not as familiar as the Somme Passchendaele or Verdun This book examines the battle for the Messines Wytschaete Ridge from the British ANZAC and German perspectives Illustrated with archive photographs and maps it is a major contribution to our understanding of one of the seminal battles of the First World War *Living on the Western Front* Chris Ward, 2013-04-11 Living on the Western Front provides a highly original history of the settler experience in Belgium British Expeditionary Force land during the First World War Using an unusual representational form that involves the stitching together of over a hundred extracts from primary sources which can then in turn be read either chronologically or thematically Chris Ward brilliantly depicts a sense of settlers lives in Great War Belgium Northern France and Germany Simultaneously an annal and an anthology of stories this book tells us about landscapes sounds smells food journeys memory and morale in the way that the Belgium settlers actually lived and experienced them The book also challenges popular conceptions of what history writing can or should be It drags us away from the reassuringly commanding authorial voice of the conventional historical narrative towards an approach that brings a degree of uncertainty and encourages us to experiment with History and its relationship with the past in an exciting and rewarding way **Salient**
