

A photograph of two Native Americans, likely from the Pacific Northwest, riding horses and looking out over a vast landscape. They are seen from behind, wearing traditional regalia including feathered headdresses and patterned tunics. The horses are white with dark spots. The background features a dense forest of evergreen trees and a range of large, rugged mountains with patches of snow or light-colored rock under a clear sky.

The Salmon People Hugh W. McKervill, 1967      Sutebusuton Mitsuo Yesaki, 2003      **The Wired Northwest** Paul W. Hirt, 2012-10-18 The Pacific Northwest holds an abundance of resources for energy production from hydroelectric power to coal nuclear power wind turbines and even solar panels But hydropower is king Dams on the Columbia Snake Fraser Kootenay and dozens of other rivers provided the foundation for an expanding regionally integrated power system in the U S Northwest and British Columbia A broad historical synthesis chronicling the region s first century of electrification Paul Hirt s new study reveals how the region s citizens struggled to build a power system that was technologically efficient financially profitable and socially and environmentally responsible Hirt shows that every energy source comes with its share of costs and benefits Because Northwest energy development meant river development the electric power industry collided with the salmon fishing industry and the treaty rights of Northwest indigenous peoples from the 1890s to the present Because U S federal agencies like the Army Corps of Engineers and the U S Bureau of Reclamation built many of the large dams in the region a significant portion of the power supply is publicly owned initiating contentious debates over how that power should best serve the citizens of the region Hirt dissects these ongoing battles evaluating the successes and failures of regional efforts to craft an efficient yet socially just power system Focusing on the dynamics of problem solving governance and the tense relationship between profit seeking and the public interest Hirt s narrative takes in a wide range of players not only on the consumer side where electricity transformed mills mines households commercial districts urban transit factories and farms but also power companies operating at the local and regional level and investment companies that financed and in some cases parasitized the operators His study also straddles the international border It is the first book to compare energy development in the U S Northwest and British Columbia Both engaging and balanced in its treatment of all the actors on this expansive stage **The Wired Northwest** helps us better understand the challenges of the twenty first century as we try to learn from past mistakes and re design an energy grid for a more sustainable future      Tofino and Clayoquot Sound Margaret Horsfield, Ian Kennedy, 2014-10-25 Clayoquot Sound on the West Coast of Vancouver Island is not only a place of extraordinary raw beauty but also a region with a rich heritage and fascinating past Tofino and Clayoquot Sound delves into all facets of the region s history bringing to life the chronicle that started with the dramatic upheavals of geological formation and continues to the present day The book tours through the history of the Hesquiaht Ahousaht and Tla o qui aht as well as other nations that inhabited the area in earlier times It documents the arrival of Spanish British and American traders on the coast and their avid greed for sea otter pelts It follows the development of the huge fur seal industry and its profound impact on the coast It tracks the establishment of reserve lands and two residential schools The coming of World War II is discussed as is the installation of a large Air Force base near Tofino which changed the town and area dramatically From here the story spirals into the post road period With gravel and asphalt came tourism newcomers the counter culture of the 1960s the

establishment of Pacific Rim National Park and of course surfing The book also addresses logging which became the main industry in the area and its questionable practices going into detail about the War in the Woods the world famous conflict and largest mass arrest in Canadian history A place is shaped by its people and Horsfield and Kennedy highlight notable figures of past and present the merchants the missionaries the sealers and the settlers the eternally optimistic prospectors the Japanese fishermen and their families the hippies the storm and whale watchers the First Nations elders and leaders Offering an overall survey of the history of the area Tofino and Clayoquot Sound is extensively researched and illustrated with historic photos and maps it evokes the spirit and culture of the area and illuminates how the past has shaped the present

**Postcolonialism, Indigeneity and Struggles for Food Sovereignty** Marisa Wilson, 2016-10-04 This book explores connections between activist debates about food sovereignty and academic debates about alternative food networks The ethnographic case studies demonstrate how divergent histories and geographies of people in place open up or close off possibilities for alternative sovereign food spaces illustrating the globally uneven and varied development of industrial capitalist food networks and of everyday forms of subversion and accommodation How for example do relations between alternative food networks and mainstream industrial capitalist food networks differ in places with contrasting histories of land appropriation trade governance and consumer identities to those in Europe and non indigenous spaces of New Zealand or the United States How do indigenous populations negotiate between maintaining a sense of moral connectedness to their agri and acqua cultural landscapes and subverting or indeed appropriating industrial capitalist approaches to food By delving into the histories geographies and everyday worlds of post colonial peoples the book shows how colonial power relations of the past and present create more opportunities for some alternative producer consumer and state market civil society relations than others

**B C Studies**, 1969 **The Aquaculture Controversy in Canada** Nathan Young, Ralph Matthews, 2011-01-01 Aquaculture the farming of aquatic organisms is one of the most promising but controversial new industries in Canada Advocates believe aquaculture has the potential to solve environmental and food supply problems resulting from global overfishing Critics argue that industrial scale aquaculture poses unacceptable threats to human health local communities and the environment The Aquaculture Controversy in Canada is not about methods of aquaculture but rather an exploration of why the practice has been the centre of intense debate in Canada Nathan Young and Ralph Matthews present the controversy as rooted in local and global conflicts over risk development rights and knowledge The inability of the industry to address the controversy s complexities they argue has only fuelled the debate Comprehensive and balanced this book will appeal to anyone who wants a deeper understanding of one of the most contentious public policy and environmental issues facing the world today

**A Complex Culture of the British Columbia Plateau** Brian Hayden, 2011-11-01 Early hunter gatherer societies have traditionally been considered basically egalitarian in nature This assumption however has been challenged by contemporary archaeological and anthropological research which has

demonstrated that many of these societies had complex social economic and political structures This volume considers two British Columbia Native communities the Lillooet and Shuswap communities of Fountain and Pavilion and traces their development into complex societies The authors explore the relation between resource characteristics and hunter gatherer adaptations and examine the use of fish animal and plant species documenting their availability and the techniques used in their gathering processing and storing The book also shows how cultural practices such as raiding potlatching and stewardship of resources can be explained from a cultural ecological point of view An important contribution to the study of hunting and gathering cultures in the Northwest this book is the most detailed examination of the subsistence base of a particular hunting and gathering group to date Its exploration of the reasons why complex hunting and gathering societies emerge as well as the ecological relationships between cultures and resources will make an important contribution to the study of cultural ecology and contemporary archaeology

**An Environmental History of Canada** Laurel Sefton MacDowell, 2012-07-31 Throughout history most people have associated northern North America with wilderness with abundant fish and game snow capped mountains and endless forest and prairie Canada's contemporary picture gallery however contains more disturbing images deforested mountains empty fisheries and melting ice caps Adopting both a chronological and thematic approach Laurel MacDowell examines human interactions with the land and the origins of our current environmental crisis from first peoples to the Kyoto Protocol This richly illustrated exploration of the past from an environmental perspective will change the way Canadians and others around the world think about and look at Canada

*Salish Archipelago* Moshe Rapaport, 2024-06-24 The Salish Archipelago includes more than 400 islands in the Salish Sea an amalgamation of Canada's Georgia Strait the United States Puget Sound and the shared Strait of Juan de Fuca The Salish Sea and Islands are named for the Coast Salish Indigenous Peoples whose homelands extend across the region Holiday homes and services have in many places displaced pristine ecosystems Indigenous communities and historic farms Will age old island environments and communities withstand the forces of commodity driven economies This new major scholarly undertaking provides the geographical and historical background for exploring such questions Salish Archipelago features sections on environment history society and management accompanied by numerous maps and other illustrations This diverse collection offers an overview of an embattled but resilient region providing knowledge and perspectives of interest to residents educators and policy makers

Library of Congress Subject Headings Library of Congress, 2012 **The British Columbia Genealogist**, 1986 The First Nations of British Columbia Robert James Muckle, 1998 The First Nations of British Columbia presents a concise and accessible overview of First Nations peoples cultures and issues in the province Its primary purpose is to provide an understanding of today's pertinent concerns and initiatives by familiarizing readers with the history diversity and complexity of First Nations It does so from an anthropological perspective from which crucial archaeological ethnographic historic and legal political issues are explored **Voices of British Columbia** Robert

Budd,2010-09-01 Between 1959 and 1966 the late CBC Radio journalist Imbert Orchard travelled across British Columbia with recording engineer Ian Stephen interviewing nearly a thousand of the province's pioneers. The resulting collection of 2 700 hours of audiotapes describing both extraordinary events and everyday experiences is considered by historians to be one of the best sources of primary information about the province. To the general public however the tales in these tapes remain virtually unknown. Combining text, archival photographs and the original sound recordings from the CBC Archives onto three CDs, *Voices of British Columbia* draws 24 stories from this collection to immerse us in daily life in the early 20th century. You'll meet Sarah Glassey, a spirited homesteader who carried a rifle and bagged more birds than any man in the Kispiox Valley. You'll hear Bill LaChance, the sole survivor of the 1910 Glacier Snowslide, describe that tragic avalanche. And you'll discover how Great Chief Kwah of Fort St James spared the life of James Douglas, future governor of British Columbia. By turns sad, contemplative, insightful and funny, these stories reveal as much about the spirit and resilience of people as they do about the history of the province.

**The Canadian Encyclopedia** James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest, most comprehensive book ever published in Canada for the general reader. It is COMPLETE: every aspect of Canada, from its rock formations to its rock bands, is represented here. It is UNABRIDGED: all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED: since 1988, teams of researchers have been diligently fleshing out old entries and recording new ones; as a result, the text from 1988 has grown by 50% to over 4 000 000 words. It has been UPDATED: the researchers and contributors worked hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship: AUTHORITATIVE, RELIABLE and READABLE. Every entry is compiled by an expert. Equally important, every entry is written for a Canadian reader, from the Canadian point of view. The finished work, many years in the making and the equivalent of forty average-sized books, is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this volume represents a great national achievement. From its formal inception in 1979, this encyclopedia has always represented a vote of faith in Canada, in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a new century and a new millennium, in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations, this *Canadian Encyclopedia* is offered in a spirit of defiance and of faith in our future. The statistics behind this volume are staggering. The opening sixty pages list the 250 Consultants, the roughly 4 000 Contributors, all experts in the field they describe, and the scores of researchers, editors, typesetters, proofreaders and others who contributed their skills to this massive project. The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words, making it the largest, some might say the greatest Canadian book ever published. There are, of course, many special features. These include a map of Canada, a special page comparing the key statistics of the

23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada

**Tsimshian Mythology** Franz Boas, 1916 [Communities, Development, and Sustainability across Canada](#) John T. Pierce, Ann Dale, 2011-11-01 What is a sustainable community The pressing need to answer this simple question is what prompted John Pierce and Ann Dale to gather the essays in this volume Communities Development and Sustainability across Canada is a timely synthesis of work on how Canadian communities can achieve sustainable development It bridges the gap between theory and praxis and brings together academics policy makers and community activists all of whom have argued for increased local participation in sustainable community development Communities have become the weak link in efforts to refashion relations between the environment and the economy The goal of this book is not simply to describe problems but also to suggest answers not simply to offer theory but also to promote action so that Canadian communities can better achieve sustainable development The twelve essays are organized into four sections Vision Connections Action and Assessing Progress The first and last sections discuss local sustainable development within the context of increasing globalization The second section approaches sustainable development from the perspective of social evolution and urban systems The third section the heart of the book is comprised of three community case studies an assessment of the Pacific salmon fishery and four general discussions of sustainable development The conclusion reiterates the need to make

communities stronger links in sustainable development The message of Communities Development and Sustainability across Canada is clear it is time for communities themselves to act if they are to achieve sustainable development This provocative and persuasive book will prove to be a valuable guide to taking the first steps      **Annual British Columbia Development Edition, Saturday Sunset** ,1912      **British Columbia Fishery Commission** Canada. Lets delve into the realm of popular books, exploring the captivating narratives that have captivated audiences this year. Salmon People Bc : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
