**Salonica and After** Harry Collinson Owen, 1919      **Colonial Encounters in a Time of Global Conflict, 1914-1918**

Santanu Das, Anna Maguire, Daniel Steinbach, 2021-09-28 This volume gathers an international cast of scholars to examine the unprecedented range of colonial encounters during the First World War More than four million men of color and an even greater number of white Europeans and Americans crisscrossed the globe Others in occupied areas behind the warzone or in neutral countries were nonetheless swept into the maelstrom From local encounters in New Zealand Britain and East Africa to army camps and hospitals in France and Mesopotamia from cafes and clubs in Salonika and London to anticolonial networks in Germany the USA and the Dutch East Indies this volume examines the actions and experiences of a varied company of soldiers medics writers photographers and revolutionaries to reconceptualize this conflict as a turning point in the history of global encounters How did people interact across uneven intersections of nationality race gender class religion and language How did encounters direct and mediated forced and unforced shape issues from cross racial intimacy and identity formation to anti colonial networks civil rights movements and visions of a post war future The twelve chapters delve into spaces and processes of encounter to explore how the conjoined realities of war race and empire were experienced recorded and instrumentalized

*Thessaloniki* Dimitris Keridis, John Kiesling, 2020-03-12 This book shares the conclusions of a remarkable conference marking the centennial of Thessaloniki's incorporation into the Greek state in 1912 Like its Roman and Byzantine predecessors Ottoman Salonica was the metropolis of a huge multi ethnic Balkan hinterland a center of modernization westernization and the de facto capital of Sephardic Judaism The powerful attraction it exerted on competing local nationalisms including the Young Turks gave it a paradigmatic role in the transition from imperial to national rule in southeastern Europe Twenty three articles cover the multicultural physiognomy of a Levantine city They describe the mechanisms for cultivating national consciousness including education journalism the arts archaeology and urban planning the relationship between national identity religious identity and an evolving socialist labor movement anti Semitism and the practical issues of governing and assimilating diverse non Greek populations after Greece's military victory in 1912 Analysis of this transformation extends chronologically through the arrival of Greek refugees from Turkey and the Black Sea in 1923 the Holocaust the Greek civil war and the new waves of migration after 1990 These processes are analyzed on multiple levels including civil administration land use planning and the treatment of Thessaloniki's historic monuments This work underscores the importance of cities and their local histories in shaping the key national narratives that drove development in southeastern Europe Those lessons are highly relevant today as Europe reacts to renewed migratory pressures and the rise of new nationalist movements and draws lessons valid or otherwise from the nation building experiments of the previous century

**Archaeology Behind the Battle Lines** Andrew Shapland, Evangelia Stefani, 2017-07-20 This volume focuses on a formative period in the history and archaeology of northern Greece The decade following 1912 when Thessaloniki became part of Greece was a period marked by an extraordinary internationalism as a result of the population movements caused by the shifting of national borders and the troop movements which accompanied the First World War The papers collected here look primarily at the impact of the discoveries of the Army of the Orient on the archaeological study of the region of Macedonia Resulting collections of antiquities are now held in Thessaloniki London Paris Edinburgh and Oxford Various specialists examine each of these collections bringing the archaeological legacy of the Macedonian Campaign together in one volume for the first time A key theme of the volume is the emerging dialogue between the archaeological remains of Macedonia and the politics of Hellenism A number of authors consider how archaeological interpretation was shaped by the incorporation of Macedonia into Greece Other authors describe how the politics of the Campaign in which Greece was initially a neutral partner had implications both for the administration of archaeological finds and their subsequent dispersal A particular focus is the historical personalities who were involved and the sites they discovered The role of the Greek Archaeological Service particularly in the protection of antiquities as well as promoting excavation in the aftermath of the 1917 Great Fire of Thessaloniki is also considered

Serving the empire in the Great War Andrekos Varnava, 2017-08-07 This book contributes to the growing literature on the role of the British non settler empire in the Great War by exploring the service of the Cypriot Mule Corps on the Salonica Front and after the war in Constantinople Varnava encompasses all aspects of the story of the Mule Corps from the role of the animals to the experiences of the men driving them both during and after the war as well as how and why this significant story in the history of Cyprus and the British Empire has been forgotten The book will be of great value to anyone interested in the impact of the Great War upon the British Empire in the Mediterranean and vice versa

**The Other Wars** Justin Fantauzzo, 2020 The first full length study of the experience and memory of British and Dominion soldiers in the Middle East and Macedonia during WWI

Greek Civilization through the Eyes of Travellers and Scholars Leonora Navari, 2021-10-25 In collaboration with Konstantinos Staikos a leading authority on library history Leonora Navari has created an indispensable aid to any scholar of Greek culture This richly annotated bibliography documents the renowned collection of Dimitris Contominas whose library was assembled with the goal of collecting every book by scholars and visitors to Greece from the fifteenth to the mid twentieth century Each book is completely described bibliographically and the extensive notes include information on printing history biographical data of the authors and illustrators the significance of

the work and its connections with the historical context of its time The historical introduction is bilingual in English and Greek There are over 200 illustrations most in colour and multiple indexes **Trench Talk** Peter Doyle, Julian Walker, 2011-11-30 The First World War largely directed the course of the twentieth century Fought on three continents the war saw 14 million killed and 34 million wounded Its impact shaped the world we live in today and the language of the trenches continues to live in the modern consciousness One of the enduring myths of the First World War is that the experience of the trenches was not talked about Yet dozens of words entered or became familiar in the English language as a direct result of the soldiers experiences This book looks at how the experience of the First World War changed the English language adding words that were both in slang and standard military use and modifying the usage and connotations of existing words and phrases Illustrated with material from the authors collections and photographs of the objects of the war the book will look at how the words emerged into everyday language **Under the Devil's Eye** Alan Wakefield, Simon Moody, 2011-07-12 A fantastic overview of one of Britain's untold stories from the Great War the Salonika Campaign that pitted Allied forces against the Bulgarians Burton Mail The authors have researched the Salonika Campaign in every detail from the arrival of the first British troops in 1915 to final victory During this period large numbers of British and Allied troops were tied up in the strategically vital Balkans Salonika was converted into a vast military base and over 70 miles of defensive works were created We learn of the disappointments of the British XII Corps offensive in April May 1917 The First Battle of Doiran and the more successful aggressive raiding in the Struma Valley Using firsthand accounts a vivid picture of life in the British Army is painted with the roles of the Royal Flying Corps RAF and RNAS well covered The campaign drew to a victorious conclusion with the defeat of the Bulgarians in 1918 but the British Salonika Army remained in place until 1921 The effect of this slow demobilization is also covered This impressive work demonstrates vividly that the Allied involvement in this region was anything other than a sideshow This would be a superb book to add to any Great War collection Great War Magazine The authors have addressed one of the great omissions by historians covering WWI This is a well researched study of a subject that has received far less than its deserved attention The photo plate section is well selected and maps in the body of the book help in the understanding of this unfamiliar part of WWI Very Highly Recommended Firetrench *The Bookman's Journal and Print Collector* Wilfred Partington, 1919 Levant Philip Mansel, 2011-05-24 Not so long ago in certain cities on the shores of the eastern Mediterranean Muslims Christians and Jews lived and flourished side by side What can the histories of these cities tell us Levant is a book of cities It describes three former centers of great wealth pleasure and freedom Smyrna Alexandria and Beirut cities of the Levant region along the eastern coast of the Mediterranean In these key ports at the crossroads of East and West against all expectations cosmopolitanism and nationalism flourished simultaneously People freely switched identities and languages released from the prisons of religion and nationality Muslims Christians and Jews lived and worshipped as neighbors Distinguished historian Philip Mansel is the first to recount the

colorful contradictory histories of Smyrna Alexandria and Beirut in the modern age He begins in the early days of the French alliance with the Ottoman Empire in the sixteenth century and continues through the cities mid twentieth century fates Smyrna burned Alexandria Egyptianized Beirut lacerated by civil war Mansel looks back to discern what these remarkable Levantine cities were like how they differed from other cities why they shone forth as cultural beacons He also embarks on a quest to discover whether as often claimed these cities were truly cosmopolitan possessing the elixir of coexistence between Muslims Christians and Jews for which the world yearns Or below the glittering surface were they volcanoes waiting to erupt as the catastrophes of the twentieth century suggest In the pages of the past Mansel finds important messages for the fractured world of today

**She Has Her Mother's Laugh** Carl Zimmer, 2019-06-04 2019 PEN E O Wilson Literary Science Writing Award Finalist Science book of the year The Guardian One of New York Times 100 Notable Books for 2018 One of Publishers Weekly's Top Ten Books of 2018 One of Kirkus's Best Books of 2018 One of Mental Floss's Best Books of 2018 One of Science Friday's Best Science Books of 2018 Extraordinary New York Times Book Review Magisterial The Atlantic Engrossing Wired Leading contender as the most outstanding nonfiction work of the year Minneapolis Star Tribune Celebrated New York Times columnist and science writer Carl Zimmer presents a profoundly original perspective on what we pass along from generation to generation Charles Darwin played a crucial part in turning heredity into a scientific question and yet he failed spectacularly to answer it The birth of genetics in the early 1900s seemed to do precisely that Gradually people translated their old notions about heredity into a language of genes As the technology for studying genes became cheaper millions of people ordered genetic tests to link themselves to missing parents to distant ancestors to ethnic identities But Zimmer writes Each of us carries an amalgam of fragments of DNA stitched together from some of our many ancestors Each piece has its own ancestry traveling a different path back through human history A particular fragment may sometimes be cause for worry but most of our DNA influences who we are our appearance our height our penchants in inconceivably subtle ways Heredity isn't just about genes that pass from parent to child Heredity continues within our own bodies as a single cell gives rise to trillions of cells that make up our bodies We say we inherit genes from our ancestors using a word that once referred to kingdoms and estates but we inherit other things that matter as much or more to our lives from microbes to technologies we use to make life more comfortable We need a new definition of what heredity is and through Carl Zimmer's lucid exposition and storytelling this resounding tour de force delivers it Weaving historical and current scientific research his own experience with his two daughters and the kind of original reporting expected of one of the world's best science journalists Zimmer ultimately unpacks urgent bioethical quandaries arising from new biomedical technologies but also long standing presumptions about who we really are and what we can pass on to future generations
