items Spices and condiments are a major commercial crop in India and earn a major part of foreign exchange annually They
have been the backbone of agricultural industry The importance of spices and condiment in dietary medicinal and other uses
and their commercial importance are immense India is known the world over as the home of spices Thus spices are an
important group of agricultural goods which are virtually indispensable in the culinary art Spice processing includes different
steps spice cleaning spice reconditioning and spice grinding Some spices were also used for preserving food like meat for a
year or more without refrigeration In the 16th century cloves for instance were among the spices used to preserve food
without refrigeration Cloves contain a chemical called eugenol that inhibits the growth of bacteria It is a natural antibiotic It
is still used to preserve food like Virginia Ham Likewise later mustard and ground mustard were also found to have
preservative qualities India alone contributes 25 30 % of the total world trade in spices It may be interesting to note that nine
spices namely pepper ginger clove cinnamon cassia mace nutmeg pimento allspice and cardamom alone contributed as much
as 90% of the total world trade Pepper is the most important spice in the world and so also of India This book basically deals
with brief history of spices uses of spices world trade in spices area production of spices in India area and production of
spices in India major and minor spices of India spice processing quality issues with spices bird chillies and Tabasco chillies
