**Desarrollo y Diversidad Social** Deborah Eade, 1998-09. Reune una selección de textos sobre el tema de la diversidad social y el desarrollo. El concepto de diversidad social es relativamente reciente y plantea la necesidad de reconocer las diferencias entre las personas ya sea como individuos, como grupos o como sociedades. Esta diversidad hace que en el campo del desarrollo social no sea siempre posible aplicar soluciones globales. En los últimos años se ha visto que la teoría y la práctica del desarrollo han evolucionado ignorando en muchos casos a grupos marginados como mujeres mayores o niños que no se han beneficiado de los programas de desarrollo. En estos artículos se adopta un enfoque nuevo en el que es prioritaria la apreciación de la diversidad reconociendo la importancia del análisis de género en la planificación para el desarrollo. En última instancia se aboga por un equilibrio entre el análisis de la situación y las herramientas de acción que se van a emplear sin enfrentar a diferentes colectivos y evitando así la fragmentación. Por último se incluye una bibliografía comentada.
