The Love Story in Shakespearean Comedy Anthony J. Lewis, 2021-10-21. In this fascinating study, Anthony J. Lewis argues that it is the hero himself rejecting a woman he apprehends as a threat who is love's own worst enemy. Drawing upon classical and Renaissance drama iconography and a wide range of traditional and feminist criticism, Lewis demonstrates that in Shakespeare the actions and reactions of hero and heroine are contingent upon social setting, father-son relations, patriarchal restrictions on women, and cultural assumptions about gender-appropriate behavior. This compelling analysis shows how Shakespeare deepened the familiar love stories he inherited from New Comedy and Greek romance. Beginning with a penetrating analysis of the hero's contradictory response to sexual attraction, Lewis's discussion traces the heroine's reaction to abandonment and slander and the lover's subsequent parallel descents into versions of bastardy and death. In arguing that comedy's happy ending is the product of the gender role reversals brought on by their evolving relationship itself, Lewis shows in meticulous detail how sexual stereotypes influence attitudes and restrict behavior. This perceptive discussion of male response to family and of female response to rejection will appeal to Shakespeare scholars and students as well as to the theater community. Lewis's persuasive argument that Shakespeare's heroes and heroines are from the first three-dimensional figures far removed from the stock types of Plautus, Terence, and his continental sources will prove a valuable contribution to the ongoing feminist reappraisal of Shakespeare.
