Shamanism History And The State:

Shamanism, History, and the State Nicholas Thomas, Caroline Humphrey, 1996 Nine case studies of shamanic practice in widely different cultures *Shamanism* Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual s experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia **State and Court Ritual in China** Joseph P. McDermott, 1999-09-16 This broad ranging examination of Chinese court and state ritual from 1000 BC to AD 1750 represents the first modern comprehensive account of the subject in any language The essays demonstrate how and why ritual has played such a fundamental and often controversial role in the practice of Chinese politics By tracing the political and social development of particular rituals such as imperial funerals and popular religious practices or Buddhist ordination ceremonies and court audiences the authors set out to convey their historical significance Further discussion of the role of ritual in relation to language and elite and popular concepts of emperorhood is included in the volume The book will be of interest to students of Chinese history anthropology and religion as well as those seeking to understand the legacy of that history in modern China *Shamanism in Siberia* Mally Stelmaszyk, 2022-03-28 The focus of this book is on the phenomenon of cursing in shamanic practice and everyday life in Tuva a former Soviet republic in Siberia Based on extensive anthropological fieldwork where the author interacted with a wide range of people involved in cursing practices the book examines Tuvans lived experience of cursing and shamanism thereby providing deep insights into Tuvans intimate and social worlds It highlights especially the centrality of sound how interactions between humans and non humans are brought about through an array of sonic phenomena such as musical sounds sounds within words and non linguistic vocalisations and how such sonic phenomena are a key part of dramatic cursing events and wider shamanic performance and ritual involving humans and spirits alike Overall the book reveals a great deal about occult practices and about social change in post Soviet Tuva Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Routledge Handbook of*

Religions in Asia Bryan Turner, Oscar Salemink, 2014-09-25 The Routledge Handbook of Religions in Asia provides a contemporary and comprehensive overview of religion in contemporary Asia Compiled and introduced by Bryan S Turner and Oscar Salemink the Handbook contains specially written chapters by experts in their respective fields The wide ranging introduction discusses issues surrounding Orientalism and the historical development of the discipline of Religious Studies It conveys how there have been many centuries of interaction between different religious traditions in Asia and discusses the problem of world religions and the range of concepts such as high and low traditions folk and formal religions popular and orthodox developments Individual chapters are presented in the following five sections Asian Origins religious formations Missions States and Religious Competition Reform Movements and Modernity Popular Religions Religion and Globalization social dimensions Striking a balance between offering basic information about religious cultures in Asia and addressing the complexity of employing a western terminology in societies with radically different traditions this advanced level reference work will be essential reading for students researchers and scholars of Asian Religions Sociology Anthropology Asian Studies and Religious Studies

State Healthcare and Yanomami Transformations José Antonio Kelly, 2011-10-01 Amazonian indigenous peoples have preserved many aspects of their culture and cosmology while also developing complex relationships with dominant non indigenous society Until now anthropological writing on Amazonian peoples has been divided between traditional topics like kinship cosmology ritual and myth on the one hand and the analysis of their struggles with the nation state on the other What has been lacking is work that bridges these two approaches and takes into consideration the meaning of relationships with the state from an indigenous perspective That long standing dichotomy is challenged in this new ethnography by anthropologist Jos Kelly Kelly places the study of culture and cosmology squarely within the context of the modern nation state and its institutions He explores Indian white relations as seen through the operation of a state run health system among the indigenous Yanomami of southern Venezuela With theoretical foundations in the fields of medical and Amazonian anthropology Kelly sheds light on how Amerindian cosmology shapes concepts of the state at the community level The result is a symmetrical anthropology that treats white and Amerindian perceptions of each other within a single theoretical framework thus expanding our understanding of each group and its influences on the other This book will be valuable to those studying Amazonian peoples medical anthropology development studies and Latin America Its new takes on theory and methodology make it ideal for classroom use

The Woman in the Shaman's Body Barbara Tedlock, Ph.D., 2009-09-02 A distinguished anthropologist who is also an initiated shaman reveals the long hidden female roots of the world's oldest form of religion and medicine Here is a fascinating expedition into this ancient tradition from its prehistoric beginnings to the work of women shamans across the globe today Shamanism was not only humankind's first spiritual and healing practice it was originally the domain of women This is the claim of Barbara Tedlock's provocative and myth shattering book Reinterpreting generations of scholarship Tedlock herself an expert in dreamwork divination and healing

explains how and why the role of women in shamanism was misinterpreted and suppressed and offers a dazzling array of evidence from prehistoric African rock art to modern Mongolian ceremonies for women's shamanic powers Tedlock combines firsthand accounts of her own training among the Maya of Guatemala with the rich record of women warriors and hunters spiritual guides and prophets from many cultures and times Probing the practices that distinguish female shamanism from the much better known male traditions she reveals The key role of body wisdom and women's eroticism in shamanic trance and ecstasy The female forms of dream witnessing vision questing and use of hallucinogenic drugs Shamanic midwifery and the spiritual powers released in childbirth and monthly female cycles Shamanic symbolism in weaving and other feminine arts Gender shifting and male female partnership in shamanic practice Filled with illuminating stories and illustrations The Woman in the Shaman's Body restores women to their essential place in the history of spirituality and celebrates their continuing role in the worldwide resurgence of shamanism today

The History and Environmental Impacts of Hunting Deities Richard J. Chacon, 2023-10-31 This edited volume analyzes the belief in supernatural gamekeepers and animal masters of wildlife from a cross cultural perspective It documents the antiquity and widespread occurrence of the belief in supernatural gamekeepers at the global level This interdisciplinary volume documents both the antiquity and the widespread geographical distribution of this belief along with surveying the various manifestations of this cosmology by way of studies from Europe Asia Africa and North and South America Some chapters explore the manifestations of this belief as they appear in petroglyphs pictographs and other forms of material culture Others focus on the environmental impacts of these beliefs rituals and prescribed foraging restrictions by analyzing how they affect game harvests The internationally recognized scholars in this volume assess the efficacy of this particular form of traditional ecological knowledge TEK and investigate if adherence to the belief in animal masters actually causes hunters to refrain from overharvesting wild game and thereby contributes to sustainable hunting practices This volume is of interest to anthropologists archaeologists and other social scientists researching traditional ecological knowledge TEK indigenous conservation biodiversity and sustainability practices and animal deities

An Introduction to Shamanism Thomas A. DuBois, 2009-05-14 This Introduction surveys the beliefs rituals and techniques found in shamanic traditions around the world

State Formation Christian Krohn-Hansen, Knut G. Nustad, 2005-09-20 What is the state and how can we best study it This book investigates new ways of analysing the state The contributors argue that the state is not a fixed and definite object Our perceptions of it are constantly changing and differ from person to person What is your idea of the state if you are a refugee Or if you are living in post apartheid South Africa Our perceptions are formed and sustained by evolving discourses and techniques these come from institutions such as government but are also made by communities and individuals The contributors examine how state structures are viewed from the inside by official state bodies composed of bureaucrats and politicians and how these state manifestations are supported reproduced or transformed at a local level An outline of theoretical approaches is followed by

nine case studies ranging from South Africa to Peru to Norway With a good range of contributors including Cris Shore Clifton Crais Ana Alonso and Bruce Kapferer this is a comprehensive critical analysis of anthropological approaches to the study of state formation
