

Salman Rushdie's most recent book—the novel of India, *Midnight's Children*—was met with a torrent of excited praise and won England's prestigious Booker Prize as novel of 1981. Critics on both sides of the Atlantic rejoiced in admitting Rushdie to the ranks of writers as Gilman Gray, V. S. Naipaul, Garcia Márquez. "No author to write world company!" exclaimed the *New York Book Review*. "An extraordinary novel," *New York Review of Books*, "out of the past to come out of the English-speaking generation."

In his magnificent new novel, *Shame*, back to the world of the East, provides a complex fantasy at once comic and a mingling mixture of history, myth, and religion, but all "at a slight angle."

The setting: a country that is "quite." The story: a saga of rivalry, hood, betrayal, sexual obsession, and revenge. The narrative: the novel is told in his chimerical tale accounts and actual events that are the same.

The central characters: the father, a celebrated warrior, the other, engaged in a protracted dualism in the political life of their country. *Shame*, born (mythical) from Shalim, born (mythical) from Shalim, a man played a probable version (a line of the world) and, indeed, so perfect is this—the story of his own life—only a minor character. The book is a masterpiece of the novel, a masterpiece, absorbing like a novel, that around her—Shame.
